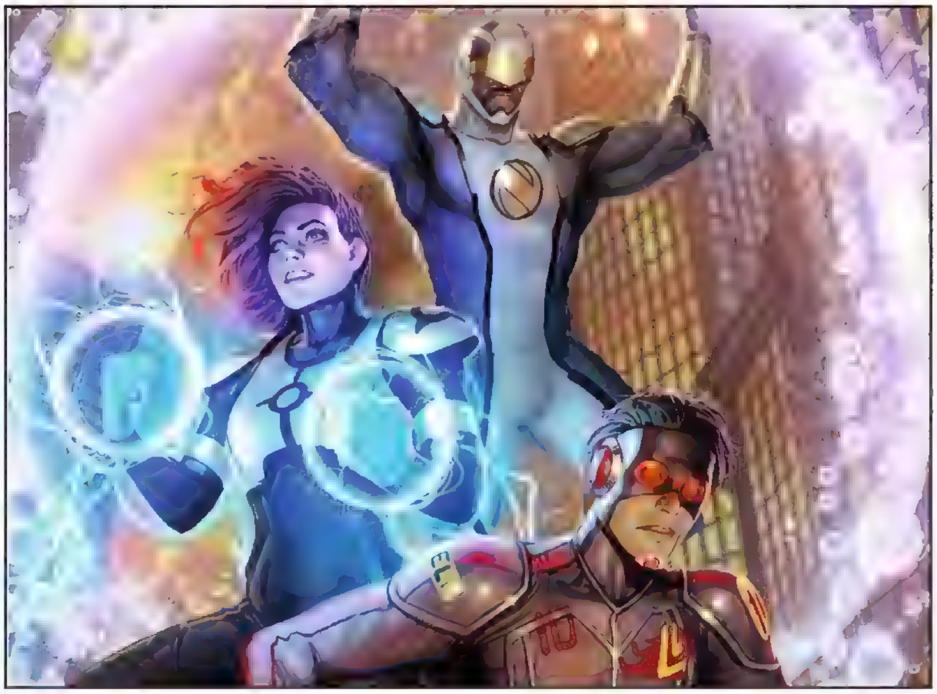
IN THIS ISSUE:

IN THIS ISSUE: KIDS COMICS 2019

Whether you're young or old, regardless of your tastes and interests, there's no denying the appeal of a well-written, well-drawn comic book or graphic novel. "Kids Comics" doesn't have to strictly mean "For Kids Only", especially when there's so much wonderful "All-Ages" content being created today which is perfectly suited for anyone to pick up and enjoy. You can find a selection of recommended titles **on page 244** of this issue, but there are plenty more to be found throughout our Print section — just look for the KIDS COMICS icon!



ALSO IN THIS ISSUE: CATALYST PRIME: SEVEN DAYS

Lion Forge Comics launched their Catalyst Prime Universe during *Free Comic Book Day* 2017, making it one of the most talked-about debuts on that first Saturday in May. Now, legendary scribe and CPU architect Gail Simone unleashes ***Catalyst Prime: Seven Days***, a seven-issue event series that unites the *Catalyst* heroes for an event that could spell the end of humanity's reign on Earth. Get the lowdown on this exciting summer event series starting **on page 336** of this issue, leading right into the Lion Forge listings for July 2019!

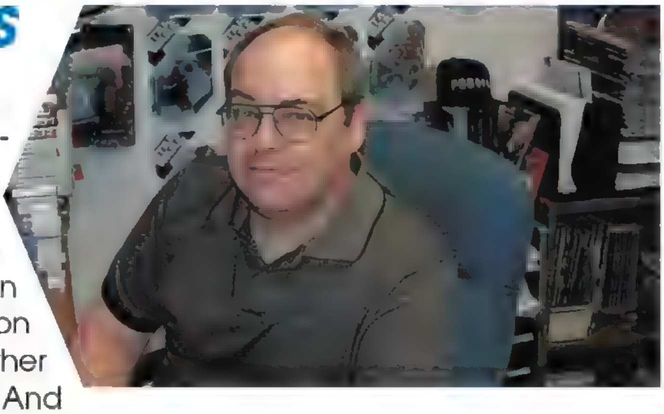
SUMMERTIME IS MOVIE TIME!



This year, the blockbuster movie season once again started early with the release of *Captain Marvel* on March 8th. And then on April 5th, we got the other Captain Marvel, *SHAZAM!* And although I have not seen it yet as I write this, *Avengers: Endgame* most likely destroyed at the box office and capped off the ten-year journey for the Marvel Cinematic Universe that started with *Iron Man* back in 2008!

As we travel forward into summer, we have so many great movies to look forward to! *Detective Pikachu* on May 10th, *John Wick: Chapter 3—Parabellum* on May 17th, *Disney's Aladdin* on May 24th, *Godzilla: King of the Monsters* on May 31st, *X-Men: Dark Phoenix* on June 7th, *Men in Black: International* on June 14th, *Child's Play* (with Mark Hamill as the voice of Chuckie!) and *Toy Story 4* on June 21st, *Spider-Man: Far from Home* on July 5th, *Disney's The Lion King* on July 19th, Quentin Tarantino's *Once Upon A Time… in Hollywood* on July 26th, *The New Mutants* on August 2nd, *Disney's Artemis Fowl* on August 9th, *IT Chapter 2* on September 6th, and Sly Stallone in *Rambo: Last Blood* closing out the summer on September 20th.

Whew! That's quite a must-see list! (Your mileage may vary…)

Elsewhere in this issue (which is our annual KIDS COMICS issue, by the way!) we have an exclusive interview with Gail Simone, discussing her work on Lion Forge's new event series, *Catalyst Prime: Seven Days!* Lion Forge launched their Catalyst Prime Universe back in 2017 on Free Comic Book Day, and their family of interconnected superhero comics have been garnering praise from both readers and reviewers alike. Now they're all being brought together for this seven-issue crossover event that CPU fans will now want to miss.

And finally, if you're reading this the week this issue of ***PREVIEWS*** hits your local comic shop: FREE COMIC BOOK DAY is THIS SATURDAY! (Sorry if you're getting this message late!) Be sure to get to your local comic shop on Saturday, May 4th, for all the FREE comics, and whatever your Local Comic Shop has lined up for the day (your experience may vary by location/retailer). Free Comic Book Day is always a good time, with lots of folks in attendance who have never stepped foot in a comic book shop until that day… hopefully making it a weekly occurrence thereafter!

Barbie Celebrates 60 Years in the Dream House

Barbie is without question one of the most iconic toys in the world. From an astronaut and a firefighter to the president of the United States, the Mattel toy has certainly come a long way since she was first introduced on March 9, 1959. After six decades, Barbie continues to transcend the toy shelf. What started as a mother attempting to find a more interactive toy for her young daughter, became a cultural phenomenon that continues to pervade the entire world of pop culture.

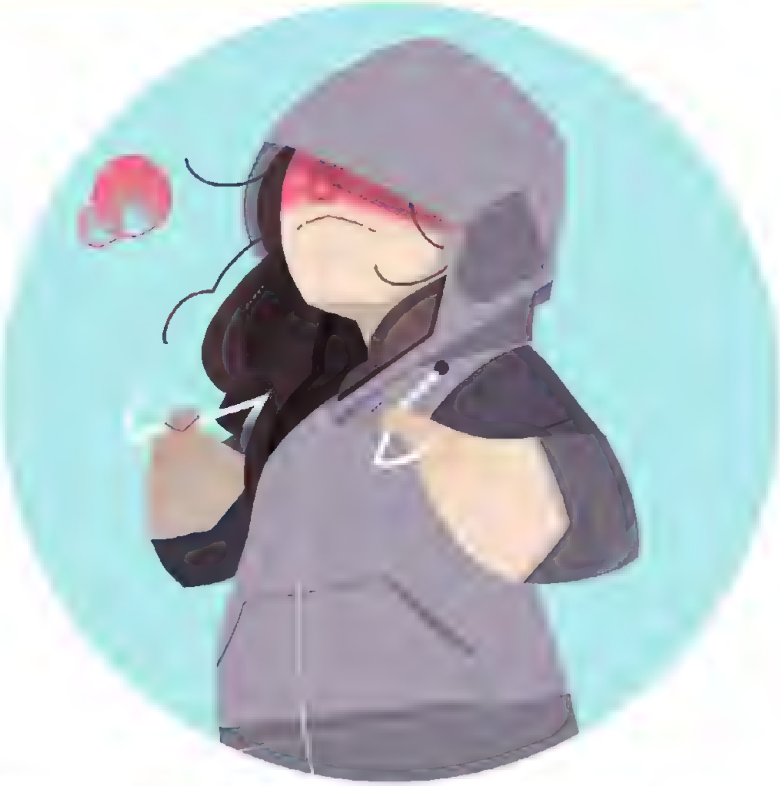
EDGE ESSENTIALS

Pick up these books to learn more about Jim Kreuger's *Indie Edge* style!

- **Hinges Book 2: Paper TigersGN (DEC150630)**
- **Hopeless Savages Vol. 4: Break TP (APR151630)**
- **Super Sexy Fun Time (DEC188489)**



Meredith McClaren is tired. When not safely atop her bed, cocooned in a burrito of comfort, she has worked on stories like *Hinges*, *Heart in A Box*, *Hopeless Savages*, and *Super Fun Sexy Times* (DEC188489). Possibly while also in bed. You can find her website at: meredithmcclaren.tumblr.com. Her Patreon at: https://www.patreon.com/meredithmcclaren. And her Twitter at: @IniquitousFish

What are your favorite projects you've contributed to over the past decade?

I love all my projects, but two that have a very special place in my heart are *Hopeless Savages* Vol. 4: Break (APR151630) written by Jen Van Meter (which was my debut book!), and *Heart in A Box* (MAY150031), written by Kelly Thompson (which is just such a beautiful modern fantasy.)

What are you currently working on?

I'm in that very special window of time where I'm pitching a few projects, but nothing's been nailed down. So, I have no answer! I hope some of those projects get picked up though... I'm really excited about them!

What fun titles are you reading?

Oh gosh, I'm behind on all my 'to read' piles! I've been enjoying the web comic, *Barbarous*, by the "Johnny Wander" team of Yuko Ota and Ananth Hirsh (*http://www.johnnywander.com/*), and *I Moved to Los Angeles to Work in Animation* (AUG181361) by Natalie Nourigat though. They're both beautifully expressive!

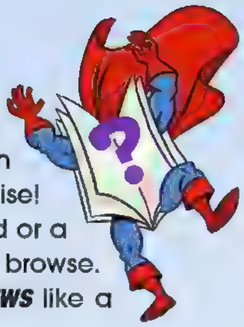
Learn How to Use *PREVIEWS* to Order From Your Comic Shop!

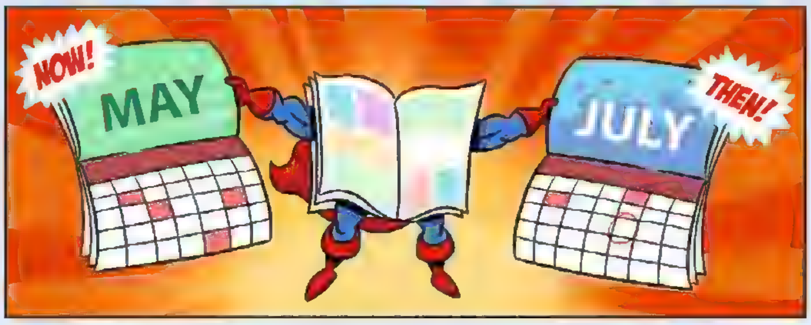
USER'S GUIDE



There's *a lot* of awesome comics and products to look through in ***PREVIEWS***. "A lot" might be a bit of an understatement, as each month's catalog is filled with hundreds and *hundreds* of pages of upcoming comics and related merchandise! It can be easy to accidentally overlook a new series you've been dying to read or a figure you've been pining to add to your shelf when there's so many things to browse. That's why we've put together this guide to help you learn how to use ***PREVIEWS*** like a pro to order the awesome titles and products you want!

WHAT EXACTLY IS *PREVIEWS*?

PREVIEWS is part catalog, part magazine (we call it a *Mag-a-log*!) of monthly listings of all of the upcoming comic titles and related products from your favorite publishers and manufacturers in one convenient place. And don't worry—***PREVIEWS*** is organized by publisher and product type (and color-coded to boot!), to make it easy to find and flip to the section or items you're looking for. Each item listing has the information you need, such as format, size, page count, price, release date, stock or item code, and descriptive text, and nearly every listing is accompanied by artwork or images.



NOW!
MAY
JULY
THEN!

The most important aspect of ***PREVIEWS*** to remember is that **items solicited in the catalog are anticipated to ship 2-3 months later (or more)**. For example, if you found a comic you wanted in the **May** issue of ***PREVIEWS***, you can expect to see it turn up in your local comic shop in **July**. The catalog can be a great resource for figuring out where your favorite comic series is going, or for discovering new ones that you'll want to add to your library—not to mention all the other awesome products!

HOW DO I ORDER FROM *PREVIEWS*?

When you've picked out all of the items you want, you can fill out the **Short Order Form** included in your copy of ***PREVIEWS*** and submit it to your local comic shop. You can also ask your friendly neighborhood retailer about obtaining a **Customer Order Form**, a booklet that contains a complete listing of all the items made available for that month. These forms make pre-ordering your comics and products a breeze and can help your local comic shop decide what to stock in the store for other customers, too! Be sure to also ask your retailer about their **pullbox or subscription service**. Once you've submitted your order, you can sit back and relax, or try to contain your excitement until your comics and merchandise arrive!

EXPLORE THE HISTORY OF THE MARVEL UNIVERSE THIS SUMMER

From the dawn of time to the end of history, Marvel Comics celebrates 80 years of publishing with Mark Waid and Javier Rodriguez's six-part mini-series, *The History of the Marvel Universe!*

Many Marvel comics published over the last 80 years have revealed key details about the Marvel Universe's past – and future. Waid and Rodriguez compile those details – the birth of the universe, the arrival of Galactus from the universe before ours, the rise of the first civilizations, the creation of Earth's solar system, the arrival of the Celestials, the birth of humanity, and much more -- into a comprehensive account of the Marvel Universe from its beginning to its end, one that reveals surprising connections and never-told secrets that will deepen your appreciation for the Marvel Universe and its inhabitants.

Mark Waid, a fan-favorite writer and student of comics history, is joined by artist Javier Rodriguez (*Spider-Woman*) and cover artist Steve McNiven for this important project that stitches together Marvel's history as it has never been told before. From 1939's *Marvel Comics* #1 to this year's War of the Realms and beyond, *The History of the Marvel Universe* will be the definitive reference work on the subject!

A journey of imagination though the past and future awaits you as Mark Waid and Javier Rodriguez reveal *The History of the Marvel Universe*, beginning this July!

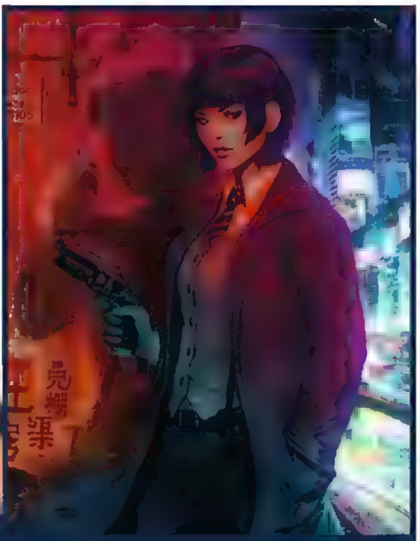
A NEW KIND OF BLADE RUNNER, A NEW KIND OF INVESTIGATION...

Blade Runner 2019 is the first comic to tell new stories in Ridley Scott's neo-noir world of Replicants and Skimmers. In a Los Angeles where Blade Runners hunt bioengineered androids on the run from off-world colonies, Detective Ashina follows the trail of a billionaire's kidnapped daughter. But it may take more than a Voight-Kampff test for her to separate the humans from the monsters...



On the case are **Michael Green**, co-writer of Oscar-winning movie *Blade Runner 2049*, and frequent collaborator **Mike Johnson!**

MIKE JOHNSON

You and Michael are frequent collaborators – how did that start?

MJ Michael and I have been friends since college. Back then, he was already a brilliant writer, and I was a wannabe comic book artist. Cut to years later, he's an even more brilliant writer, and I am... not a comic book artist. But I started writing them, after Michael invited me.

Michael's many strengths include writing characters that live far beyond the limits of the page. For my part, I like to think I provide suitably bizarre plots and imagery to entertain.

What makes *Blade Runner* special, and how can you capture that?

MJ As a kid in the early 80's, I was fascinated by the idea that the guy who played Han Solo and Indiana Jones was in a new movie starring neither! Years later, I came to appreciate the boldness of Ridley Scott's vision. That mix of sci-fi and film noir is the special magic we hope to capture as best we can.

The comic is set in 2019, the same year as the first *Blade Runner*. Why pick that period?

MJ We liked the idea of writing, in "our" 2019, a story that took place in *Blade Runner's* 2019. The differences are obvious, but it's the similarities – in human nature, in issues of technology, science, and ethics, inequalities of wealth and justice – that provide the depth that makes the story worthwhile.

This comic stars a new Blade Runner called Ash. Who is she? Why introduce a new lead?

MJ Without spoiling too much, Ash (short for Ashina) is a Blade Runner very committed to the cause. She considers Replicants to be the immoral result of the wealthy and connected playing god with human life. She relishes their retirement.

We wanted to introduce a new character so that readers could leave behind any preconceptions about what Blade Runner is and can be.

No spoilers, obviously, but what else can you tell us? What's the focus of the story?

MJ We are embracing the concept of a central mystery as intrinsic to the noir genre. This is a real detective story, with a determined hunter, and a prey we will come to know equally well.

It's not so much cat-and-mouse as cat-and-cat, a chase with unexpected and emotional results.

Can newcomers to Blade Runner enjoy this comic? Are there elements you expect existing fans to particularly enjoy?

MJ If we do our jobs right, anyone can pick up and enjoy this book without knowing anything about Blade Runner. We hope existing fans enjoy a story that is grounded in the world they know and love, but shows new facets that enhance their enjoyment of this iconic franchise.

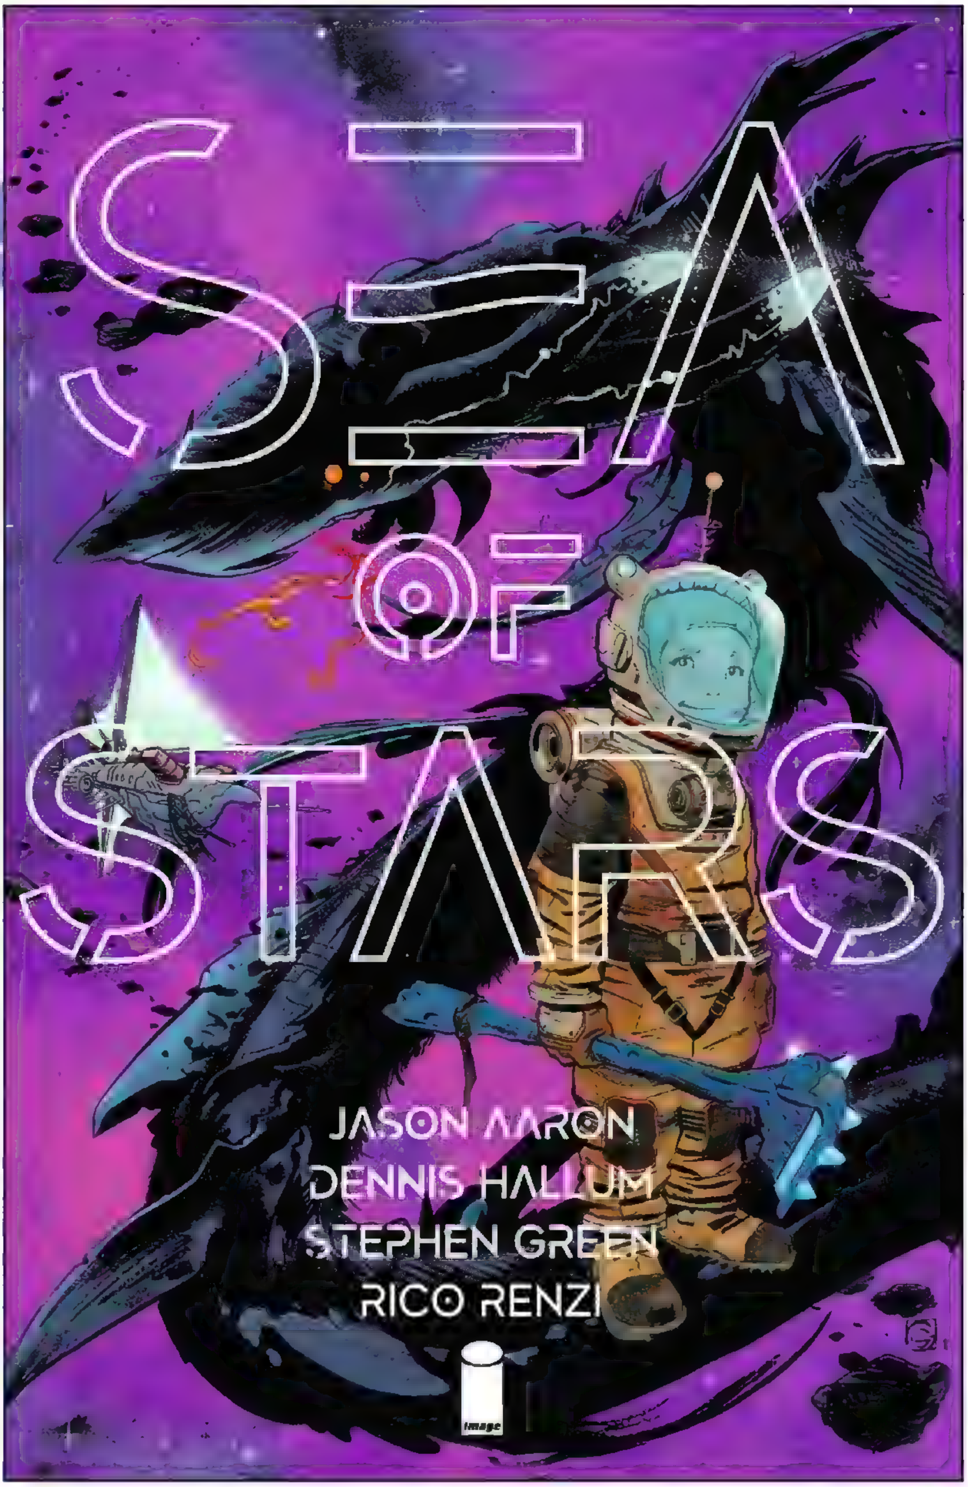
"LOST IN THE WILDS OF HEAVEN,"
Part One

Being a space trucker sounds like a cool job, but in reality, it can be boring as hell. So when recently widowed Gil gets a long-haul gig across the universe, he figures it's safe enough to bring his young son Kadyn along for the ride—that is, until their "big rig" gets bitten in half by a gigantic Space Leviathan! Now separated from his son—with a breached suit that's venting oxygen at an alarming rate—Gil must defy the odds and stay alive long enough to rescue Kadyn. But meanwhile, Kadyn seems to be getting all the help he needs from a talking Space Monkey riding a Space Dolphin... or maybe it's the strange powers he's suddenly manifesting?!

From the writing duo of **JASON AARON** (**SOUTHERN BASTARDS**, **Thor**) and **DENNIS HALLUM** (**Cloak & Dagger**, **Vader: Dark Visions**), with dazzling art by **STEPHEN GREEN** (**Hellboy and the B.P.R.D.**) and cosmic colors by **RICO RENZI** (**Spider-Gwen**), comes a brand-new science fiction series with all the scope and heart of the **The Neverending Story** crossed with the imaginative weirdness of Miyazaki—an intense, galaxy-spanning adventure that's suitable for fans of all ages!



If you liked the character-driven story of **DESCENDER**, you'll love **SEA OF STARS**.

"NO AUTHORITY BUT YOURSELF,"
Conclusion

Grant McKay has seen everything there ever was, is, and could conceivably be, but he still has one final choice to make.

This is it. The end of **RICK REMENDER** and **MATTEO SCALERA**'s seminal science fiction epic—featuring a stunning wraparound variant cover from **ANDREW ROBINSON**! Don't miss it for the world.

"A must-read for Remender's fans or anyone thrilled by bizarre and compelling sci-fi."
—**Booklist** (starred review)

"There is a lot of meat to this book... The dangers are real. People die. The worldbuilding is solid even though we're jumping through different realities. Each of those worlds pops off the page and has their own distinct look and feel."
—**Kirkus**

"This is a solid adventure tale."
—**Publishers Weekly**

"Anarcho-scientist Grant McKay and his team have ruptured membranes between dimensions and are trapped in an infinity of universes in this sickeningly beautiful graphic novel."
—**Entertainment Weekly**

"**BLACK SCIENCE** is best read tucked inside something respectable and boring. Why let the outside world know you're having this much fun?"
—**Patton Oswalt**

-Brian, Cliff, Matt & Jared

"Its tone is harder, flintier, funnier, more pragmatic, and far less concerned with idealizing the 'lost innocence' of childhood [than **Stranger Things** and **Super 8**]." —**NPR**

"An awesome selection for older teens and adults looking for an exciting sci-fi tale with unexpected twists." —**School Library Journal**

"A reminder of how fresh and accessible even the most familiar stories and tropes can feel." —**SLATE**

"A total blast, a mass-cultural mash-it-up that evokes everything from B-movie creature-feature thrills to vintage YA angst to the pop-plundering album covers of Hipgnosis... Chances are you'll get sucked into it, too—especially if **Stranger Things**...has whet your appetite for more Reagan-era intrigue." —**WIRED**

Comics will kill you.

Hal Crane should know, he's been around since practically the beginning. Stuck at an out-of-town convention, waiting to receive a lifetime achievement award, Hal's weekend takes us on a dark ride through the secret history of a medium that's always been haunted by crooks, swindlers, and desperate dreamers.

BAD WEEKEND—the story some are already calling the comic of the year from its serialization in **CRIMINAL #2** and **3**—has been expanded, with several new scenes added and remastered into a hardcover graphic novel, in the same format as **BRUBAKER** and **PHILLIPS**' (**KILL OR BE KILLED**, **FATALE**, **CRIMINAL**) bestselling **MY HEROES HAVE ALWAYS BEEN JUNKIES**. This gorgeous package is a must-have, an evergreen graphic novel every true comics fan will want to own.

H.G. WELLS' THE ISLAND OF DR. MOREAU #1 (OF 2)

writer **Ted Adams & Gabriel Rodríguez**
artist **Gabriel Rodríguez**
cover **Gabriel Rodríguez** (A ,RI)

IDW founder and *Diablo House* writer/co-creator **Ted Adams** joins *Locke & Key* artist/co-creator **Gabriel Rodríguez** to present an all-new adaptation of H.G. Wells' classic science fiction novel. As relevant today as when Wells wrote it in 1896, *The Island of Doctor Moreau* addresses the question all scientists should ask themselves: "Just because we can do something, does that mean we should?"

This bold adaptation gives us a new protagonist in the form of Ellen Prendick, whose point of view shines a new light upon the horrific events on the cursed island, providing unique insights into one of the world's favorite stories.

RAGNAROK: THE BREAKING OF HELHEIM #1 (OF 6)

writer/artist/cover **Walter Simonson**
cover **Walter Simonson** (RI-A)
Stan Sakai (RI-B)

Walter Simonson's Epic tale of Norse intrigue continues!

In the end, the gods gathered together and met their foes on the Battle Plain of Vigrid. There, so the stories tell, the gods and their great enemies slaughtered each other, and the stars fell from the sky, Midgard itself sank into the all-encompassing ocean, and the Nine worlds were destroyed. In this issue, Thor hears a voice out of the past and learns that not all the old stories are true, and that the path before him now leads to Helheim, the land of the Dead.

Walter Simonson, legendary creator of *Star Slammers*, *Manhunter* and the *Alien* film adaptation (with Archie Goodwin), and the definitive version (after Stan and Jack) of Marvel's *Thor*, presents the next thrilling chapter of his own post-Ragnarok Thor saga!

TRANSFORMERS, VOL. 1: THE WORLD IN YOUR EYES

writer **Brian Ruckley**

ENEMY OF THE PEOPLE: A CARTOONIST'S JOURNEY

writer/artist/cover **Rob Rogers**

After 25 years as a political cartoonist for the *Pittsburgh Post-Gazette*, **Rob Rogers** was fired for drawing cartoons critical of President Trump. In *Enemy of the People*, Rogers writes, "Trump's open embrace of the darkest, ugliest corners of human nature has emboldened racists, neo-Nazis, criminals, thugs, despots, misogynists, and liars to come out from under their rocks and display their shameful behavior publicly. That includes publishers and editors who years ago may have been too ashamed to express their hateful views on the editorial page." From a cartoon killing spree to a social media buzz, all the way to an appearance on CNN to his final days at the paper, Rogers chronicles his unenviable journey with honesty, wit, and humor.

GRAMERCY PARK

writer **Timothée de Fombelle**
artist **Christian Cailleaux**

What could possibly connect two solitary beings—a former Opéra de Paris dancer and an elusive man whom everyone fears? New York, 1954. On the roof of an apartment building, a young woman patiently tends to her beehives and seems to be longing for someone or something. In the building across the street lives a kingpin of crime, isolated from the world, except for one mysterious weekly outing. They don't know each other, but they can see one another. Between them: the void, a police car, and a private fenced-in park under lock and key.

Gramercy Park is one of those rare graphic novels that defies the obvious and clichéd, allowing the reader the freedom to wander in this mysterious adventure and get lost in the poetic script of **Timothée de Fombelle** and embrace the delicate drawings and muted colors of **Christian Cailleaux.**

writer **Alan Moore**
artist **Kevin O'Neill**

After an epic twenty-year journey through the entirety of human culture—the biggest cross-continuity "universe" that is conceivable—**Alan Moore** and **Kevin O'Neill** conclude both their legendary *League of Extraordinary Gentlemen* and their equally legendary comic book careers with the series' spectacular fourth and final volume, *The Tempest.* Tying up the slenderest of plot threads and allusions from the three preceding volumes, *The Black Dossier,* and the *Nemo* trilogy into a dazzling and ingenious bow, the world's most accomplished and bad-tempered artist-writer team use their most stylistically adventurous outing yet to display the glories of the medium they are leaving; to demonstrate the excitement that attracted them to the field in the first place; and to analyze, critically and entertainingly, the reasons for their departure.

Opening simultaneously in the panic-stricken headquarters of British Military Intelligence, the fabled Ayesha's lost African city of Kor, and the domed citadel of "We" on the devastated Earth of the year 2996, the dense and yet furiously paced narrative hurtles like an express locomotive across the fictional globe from Lincoln Island to modern America to the Blazing World; from the Jacobean antiquity of Prospero's *Men* to the superhero-inundated pastures of the present to the unimaginable reaches of a shimmering science-fiction future. With a cast list that includes many of the most iconic figures from literature and pop culture, and a tempo that conveys the terrible momentum of inevitable events, this is literally and literarily the story to end all stories. Originally published as a six-issue run of unfashionable, outmoded and flimsy children's comics that would make you appear emotionally backward if you read them on the bus, this climactic magnum opus also reprints classic English super-team publication *The Seven Stars* from the murky black-and-white reachers of 1964. A magnificent celebration of everything comics were, are, and could be, any appreciator or student of the medium would be unwise to miss *The League of Extraordinary Gentlemen,* Volume IV: The Tempest.

AFTER THE SPRING: A STORY OF TUNISIAN YOUTH

writer/artist/cover **Hélène Aldeguer**

In 2011, one of the biggest political events in the world, the Arab Spring, swept across North Africa. But what came next? As the world moves on, four young Tunisians must cope with the reality of an uncertain future in this original graphic novel.

Winner of the Raymond Leblanc Foundation's Belgian Prize, and translated into English for the first time, Hélène Aldeguer delivers an authentic look at the disillusioned state of young people in Tunisia after the events of the Arab Spring, illustrated in stark, beautiful black-and-white art.

Two years after the "Jasmine Revolution," Tunisia is unstable and facing economic hardship. Saif, Aziz, Meriem, and Chayma are among those who feel abandoned by the developing turmoil surrounding the government. Saif goes to college but worries about his younger brother; Aziz works in a call center hoping to gain approval from Meriem's family, while Meriem attends law school; and Chayma, after watching a man set himself on fire, considers emigration to France. As the situation becomes more serious and calls to activism in the streets get louder, each must consider what, or where, their future is.

PUNKS NOT DEAD, VOL. 2: LONDON CALLING

writer **David Barnett**
artist **Martin Simmonds**

INTRODUCTION BY BEST-SELLING AUTHOR IAN RANKIN!

Teenage Fergie and his invisible sidekick, the ghost of a punk rocker named Sid, head to London to find Fergie's absent father, while the Department of Extra-Usual Affairs, led by the irascible Dorothy Culpepper, and Fergie's mum Julie face demons from hell—both personal and literal.

Fergie and Sid have arrived in London… and a whole pile of trouble. All Fergie has to go on in the search for his father is an old photograph and some snippets of information that suggest "Billy" was involved in the music business in the Eighties and Nineties. Tracking down old contacts, Fergie and Sid find themselves getting mired in a shadowy undercurrent of the occult and whispers of entities not from our world. Meanwhile, back in Preston, Julie forms an unlikely alliance with Natalie as they try to find the missing Fergie.

DAVID MAZZUCCHELLI'S DAREDEVIL BORN AGAIN ARTISAN EDITION

writer **Frank Miller**

artist/cover **David Mazzucchelli**

DAVID MAZZUCCHELLI'S DAREDEVIL BORN AGAIN was released in the much-lauded ARTIST'S EDITION format in 2012. It soon became the best-selling Artist's Edition of all-time and was universally acclaimed. In 2013 the book received the prestigious EISNER AWARD for BEST ARCHIVAL PROJECT—COMIC BOOKS, as well as a HARVEY AWARD the same year. It soon sold out and has been the single most requested AE book to date for IDW to reissue.

So it is only fitting that IDW launch its new MARVEL series of ARTISAN EDITIONS with this award-winning classic! Just as the original release, DAVID MAZZUCCHELLI'S DAREDEVIL BORN AGAIN ARTISAN EDITION features the same scans—entirely from the original art—each painstakingly done by David Mazzucchelli himself to ensure the finest quality possible.

If ever a book deserved to be in this format it is Daredevil Born Again. Frank Miller, at the peak of his powers, crafted a story that remains—in an extraordinary career—one of his finest pieces of writing. And David Mazzucchelli does a stellar tour de force job as his collaborator, providing a nuanced and pitch-perfect turn as artist.

Is there any book more in need of being read and studied—and in this format—than DAREDEVIL BORN AGAIN?!

Q&A WITH IAN FLYNN

In April 2018, IDW launched a new take on *Sonic the Hedgehog* that's been incredibly well-received by fans old and new! This summer, IDW is expanding the Sonic line with the first in-continuity mini-series, *Sonic the Hedgehog: Tangle & Whisper*, an Annual, a new collection, and even more exciting stories in the ongoing series! To find out more about IDW's "Summer of Sonic" we talked to long-time Sonic scribe Ian Flynn about his plans for the Blue Blur!

Hi Ian, really excited to be talking about the *Summer of Sonic* with you! For those who aren't familiar with your work, tell us a little about your time with Sonic and IDW?
I've been working with Sonic in some shape or form for twelve years. I've mostly done comics, some of which have appeared in the games or official social media as bonus content. I also wrote two episodes for the *Sonic Boom* TV series. I've had the pleasure of writing the IDW's *Sonic the Hedgehog* comic series, as well as some *Teenage Mutant Ninja Turtles titles*, and some stuff I can't talk about yet!

One of the characteristics of your Sonic run that always stands out to me is the number of characters you manage to squeeze into every story and every arc. The third collection, *The Battle of Angel Island*, is out this July and features a baker's dozen of good guys and a whole lot of bad guys. How do you balance everyone's time in the book?
It can be tricky sometimes. The characters that are the most important to the story need to have the most page time, of course. Then it becomes a balancing act of who hasn't done a lot lately; who would be the most interesting for this scene; and who would make this scene hilarious/awesome/both?

Speaking of characters, I hear there's some plans for some new-to-IDW characters this summer. Can you tell us who'll be showing up for the first time and what it's like bringing these characters from the games into the comics?
Cream the Rabbit, E-123 Omega and Gemerl will all be appearing during Season 2! They'll be joined by Cream's personal supporting cast: her mother Vanilla, and their Chaos, Cheese and Chocola. Some of these characters have been in high demand since Season 1, and others will be a treat for the hardcore fans like me. Since this is a fresh comic book take on them, we've gotten new insights into them thanks to our friends at SEGA, so it's especially exciting. It's like meeting new friends all over again.

Besides the characters being introduced from the games, you've really made a splash with writing new characters into the series—Dr. Starline, Rough & Tumble, Jewel the Beetle, and of course Tangle and Whisper who are headlining their own mini-series. Where did the idea come from to team-up these two new characters?
The fans have been amazing in showing their love for Tangle and Whisper. They wanted more of them both, so of course we had to oblige. They're very different people, so playing them off each other is a delight.

Any big surprises in store for the *Sonic the Hedgehog: Tangle & Whisper* mini-series?
Fans have been super curious about why Whisper is so stand-offish, and the tease in *Sonic the Hedgehog Annual 2019* will only stoke the fires of their imaginations. I won't spoil it, but you will be getting answers in the mini-series!

Finally, starting at the beginning of this year, you kicked off season 2 of the comic, the Metal Virus Saga in *Sonic the Hedgehog #13*. Can you tell us about where the "Crisis City" storyline falls within that and what we can expect from the rest of the arc?
The Metal Virus Saga is all about things getting out of control and how Sonic deals with it—or fails to do so. "Crisis City" is a two-part story where Sonic's usual tactic for the Metal Virus plague will be put to the ultimate test. (It's also an Easter egg callback to a stage from two *Sonic the Hedgehog* games, for you devoted fans). I won't call it the tipping point, because we have a big shake-up planned for *Sonic the Hedgehog #25*—but I'll say no more. #KnowingSmile

AN INTERVIEW WITH THE BLOCKBUSTER NEW CREATIVE TEAM OF VAMPIRELLA WRITER *CHRISTOPHER PRIEST* & ARTIST *ERGÜN GÜNDÜZ* TALK INSPIRATION & LEGACY

As her 50th anniversary, 2019 is a banner year for Vampirella. What does Vampirella mean to you?

CHRISTOPHER PRIEST: What piqued my interest was challenging myself to write the character in a way consistent with the property's legacy while (hopefully) celebrating femininity more than we exploit it. Readers may not get that just by flipping through pages; I mean, she's still wearing the classic costume. But hopefully the substance of the character, her own self-possession and ownership of self, makes her wardrobe choices more about her own power and less about ours. As I see her, Vampirella is far more balanced and comfortable in her own skin than most of us.

I'm writing the series from the perspective that this is a science fiction series, not an occult/monster-mash thing. This approach subjects all of the fantastic elements, especially vampirism, the occult, and even modern Christianity, to empirical tests. Most everything in life, including Frankenstein's monster, has a rational explanation. Which is not to say there is no magic, no monsters, no God or no devil, but that being human is all about the journey from cradle to grave; what you learn, what you give, what you choose to believe.

For your approach on this new series, are you drawing inspiration from any other art or aspects of our society?

CHRISTOPHER PRIEST: Oh yes, from all of it. This version of Vampirella is set in the real world, as real as I'm allowed to make it. What if an alien from another planet were stranded here? What if that alien looked like one of the Kardashians and wore barely any clothing at all? What if this half-dressed alien woman had fangs, drank blood and sprouted bat wings?

We'd assume she was a vampire. But she's not a creature of occult origins. She's a Martian who's now stuck here with us idiots who stereotype her as this THING because she looks and functions a certain way. That would seem to be an allegory for how we treat each other; for racism, xenophobia, homophobia and religious persecution. So many people, in my own life, have tried to figure me out. In failing to do so, they just made stuff up. It's very frustrating. In our story arc "Seduction Of The Innocent" the "innocent" is Vampirella herself. She is the one sane person in a deeply dysfunctional and overly-politicized environment.

Your countless critically acclaimed runs on titles like Black Panther, Deathstroke, and Quantum & Woody are known for being dense and rewarding reads. What can you tease for fans to expect in Vampirella?

CHRISTOPHER PRIEST: I usually come in with a language and point of view that, while consistent with the character's history, tends to be very different from what readers have come to expect. But then, so does Grant Morrison or Garth Ennis. Brian Michael Bendis is going to bring a new voice to whatever he touches.

It is the existing Vampi fans I'm worried about because the meal is the same but the menu is about to change quite a bit. I worry a lot about that, about their reaction because Vampirella belongs more to them than she ever will to me, and we owe it to the fans who sustain the character to preserve Vampirella's legacy while finding new things to say about her. Fingers crossed...

Ergün, so many artists from all around the world have left their mark on the Scion of Drakulon. When fans read the FCBD #0 they will see a gorgeous reference to José González. How else are you taking inspiration from your predecessors while establishing yourself as the next big name on that list?

ERGÜN GÜNDÜZ: In my younger days I was naturally struck by the art of Frank Frazetta and Joe Jusko, idols of aspiring artists like myself at the time. This moment in my career, where I fully perceive all that I know is the perfect moment for me to be the Vampirella artist. I am wishing to leave remarkable works for Vampirella behind, like the old masters and the new ones, namely Alex Ross, Amanda Conner and Mike Mayhew, I salute them all!

VAMPIRELLA 50th ANNIVERSARY MASTERPIECE HIGH-END GICLEE SIGNED BY JOE JUSKO

FC | 34 3/4" X 17 1/2" | $699.99 | Teen+ | July 2019 | (C:0-1-2)

For the latest premium piece in the Dynamite Giclée Program, a beautiful Vampirella painting by the legendary Joe Jusko has been selected to celebrate the heroine's banner 50thanniversary. Jusko is treasured by Vampirella fans for his classic, fully-painted Blood Lust (1997) prestige miniseries with James Robinson, as well as countless captivating covers and other projects. In this piece, originally used for a rare, out-of-print box set, he portrays Vampi alongside her greatest friends and foes. Featured cast include Vampi's frenemy Pantha, her manipulative mother Lilith, foes Dracula and the Blood Red Queen of Hearts, and longtime allies Adam Van Helsing and Pendragon. The giclée measures 34 3/4" X 17 1/2".

Giclée are highest-end reproductions that capture every detail of the original humanly, mechanically, or technically possible. The resulting print has no perceptible dot pattern, an endless array of richly-saturated color, and every nuance of the original image. The latest inks offer a 70-year light-fastness and UV-resistance under museum archival conditions. Beyond this description, a giclée print simply must be seen to be fully appreciated. Printed on canvas, stretched, then framed, these high-end Canvas giclée are the ultimate tribute to this famous moment in comic book history! There are less than a handful of these being made, so hurry now!

When Charlie's Angels pick up an assignment to steal a dangerous patent and put it back in the hands of its mysterious inventor, they encounter their toughest counterspy yet: The Bionic Woman, Jaime Sommers. This new series follows two of television's top teams after their programming run and into the 1980s. When the Office of Scientific Investigation is privatized and its patents sold off to the highest bidder, a military contractor looks to take bionics to the battlefield. Will the Bionic Woman be able to protect the patent from the would-be thieves, or will the Angels prevail, mothballing the formula's military applications in favor of medical uses?

INTERVIEW WITH WRITER *CAMERON DEORDIO*

Which aspects of the two classic TV franchises are you most excited to carry over to the comic?

Both of these shows have strong undercurrents of empathy and loyalty that I think make them extremely interesting to pair up. Jaime feels she literally owes Oscar and OSI her life. The Angels -- and Bosley -- have one another's backs, through thick and thin. I thought it would be interesting to try to put those two ideals into conflict, without undermining them as generally good things.

Your protagonists from each series work for iconic intelligence organizations in the Office of Scientific Intelligence and the Charles Townsend Agency. How do these different backgrounds influence their tactics and can fans expect some conflict?

While OSI's tactics certainly differ in some ways from the Angels', the more pressing contrast in this book is in their points of view. It's 1983, and OSI has been privatized. Jaime and Oscar are working for a defense contractor that scooped up a lot of OSI's patents, but that contractor's interests conflict directly with the Angels' client's. So the question becomes: Where do Oscar and Jaime's interests lie?

What is artist Soo Lee bringing to this series?

When we were casting this book, I saw a commission Soo had done of Black Cat, whose hair turned out, as Soo mentioned, a little Farrah Fawcett-like. Now, it wasn't THAT simple. Much more than the hair, the way Soo conveyed Black Cat's grace, cool competency and charm really struck a chord with the way our protagonists conduct themselves. As I dug deeper into Soo's work -- of which I've been a fan for a long time -- it became clearer and clearer that "powerful, charismatic, emotive women" was right in her wheelhouse. What more could you want for a Charlie's Angels/Bionic Woman book?

Are you taking any inspiration from other media for this story?

A lot of the approach to spycraft -- especially in the world of government secrets in the 1980s -- I picked up from FX's The Americans, which is a fantastic show. I tried to throw in a dash of Mission: Impossible's action and sense of fun, which I think is at home with these properties. And whom amongst us has read Ed Brubaker and not either desperately wanted to write a spy comic or immediately felt they never could? I lucked out. But the piece of media probably most responsible for this story is the Mystery Science Theater 3000 episode "Riding with Death," where Mike Nelson, noting how extremely of-the-era the 1976 movie is, riffs: "Boy, I sure hope it never stops being the '70s, or we'll all be in trouble."

cover: Darick Robertson

Dynamite's new compilation of Garth Ennis and Darick Robertson's hit series The Boys continues with Volume 3, which includes both of the original volumes 5 & 6.

An evil so profound it threatens all mankind! The mightiest heroes on the planet uniting to defend us all! A secret crisis of such utter finality that a countdown to civil or infinite war seems unavoidable! But have you ever wondered what really happens during Crossovers? The Seven, Payback, Teenage Kix, Fantastico, and every other superhero on Earth team up for an annual event like no other - and where the superheroes go, can a certain "five complications and a dog" be far behind? But as the fun and games begin, it seems our heroes have set their sights on bigger game than usual.

You can only maim and murder so many superheroes before someone decides to do something about it, and in The Boys' case that means Payback - a superteam of unimaginable power, second only to the mighty Seven. Pulping teenage supes is one thing, but how will our heroes fare against Soldier Boy, Mind-Droid, Swatto, the Crimson Countess, and the Nazi juggernaut known as Stormfront? Blood flies and bones shatter, as Butcher and company meet fire with fire.

writer: Garth Ennis
artist: Darick Robertson
cover: Darick Robertson

All-new printing collecting the first 14 issues of the critically acclaimed series, now heading to live-action on Amazon Prime!

This is going to hurt! In a world where costumed heroes soar through the sky and masked vigilantes prowl the night, someone's got to make sure the "supes" don't get out of line. And someone will!

Billy Butcher, Wee Hughie, Mother's Milk, The Frenchman, and The Female are The Boys: A CIA-backed team of very dangerous people, each one dedicated to the struggle against the most dangerous force on Earth - superpower! Some superheroes have to be watched. Some have to be controlled. And some of them - sometimes - need to be taken out of the picture. That's when you call in The Boys! After the opening story arc introducing Hughie to the team (issues 1-6), Dark avenger Tek-Knight and his ex-partner Swingwing are in trouble (issues 7-14). Big trouble. One has lost control of his terrifyingly overactive sex-drive, and the other might just be a murderer. It's up to Hughie and Butcher to work out which is which, in Get Some. Then, in Glorious Five-Year Plan, The Boys travel to Russia - where their corporate opponents are working with the mob, in a super-conspiracy that threatens to spiral lethally out of control. Good thing our heroes have Love Sausage on their side.

Featuring some ever-so-slight tweaks the creators have meticulously restored, The Boys Omniobus Volume 1 also features bonus art materials, the script to issue #1 by Garth Ennis, a complete cover gallery, and more!

writer: Garth Ennis
artist: Darick Robertson
cover: Darick Robertson

An all-new omnibus printing that includes The Boys Volume 3: Good for the Soul & The Boys Volume 4: We Gotta Go Now.

In "Good for the Soul…" Everyone has something to get off their chest: Frenchie and the Female are up to something nasty with the Mafia, Mother's Milk goes to see his mom, Annie January wants a word with God himself, and Butcher enjoys yet another ghastly tryst with CIA Director Rayner. The Legend, meanwhile, offers to tell Hughie everything he wants to know about The Boys - all Hughie has to do is take a walk with the dead.

In "We Gotta Go Now…" All is not well with mysterious millionaire John Godolkin's band of misfits. Silver Kincaid, one of the original G-Men, has just committed suicide in the most public and grotesque way imaginable. That's not good news for Vought-American's number one franchise, with G-Force, G-Coast, G-Style, G-Wiz, the G-Brits and the G-Nomads all depending on their slice of the G-pie. There's far too much at stake for anyone to go poking around the G-Mansion now. Who knows what dirty secrets might be waiting down there in the dark?

After moving into a new home with her husband, Emma begins to fear that a supernatural force in the house is putting their family in danger. This feeling intensifies after the birth of her child—her husband has become a stranger, her baby won't stop crying, and a looming darkness threatens to destroy their idyllic life. Afraid of her own family, alone in her new home and growing more desperate every day, Emma will protect her child—no matter the cost.

Celine Loup takes a haunting look at the isolation of postpartum depression, exploring the very real fears associated with motherhood in this graphic novella of horror and suspense.

Inspired by the works of seminal authors Shirley Jackson *(The Haunting of Hill House)* and Ira Levin *(Rosemary's Baby)*.

After a mysterious attack wipes out the major cities of 19th century Japan, Korea, and China, survivors from all three lands find refuge on a hidden island and build a new society.

Hana, the orphaned daughter of Korean peasants, and Kenichi, son of a great samurai leader, have little in common except for a mutual disdain for the other. But these young warriors will have to work together when an army invades the island with shocking news: there is a new Shogun and the Island is expected to pay fealty in exchange for protection from a new enemy...a mutated horde that threatens to wipe out all humanity.

Award-winning writer **Greg Pak** *(Firefly, Mech Cadet Yu)* and artist **Giannis Milonogiannis** *(Prophet)* present a story that examines how we move forward when our past divides, set against the backdrop of a post-disaster 19th century Japan. THE IMITATION GAME: ALAN TURING DECODED SC GN

(W) Jim Ottaviani
(A/CA) Leland Purvis

Alan Turing (1912-1954) was the mathematician credited with cracking the German Enigma code during World War II, enabling the Allies to defeat the Nazis. After the war, Turing went on to launch modern computer science through his creation of the universal Turing machine and the Imitation Game, an artificial-intelligence test that is still in use today. Turing kept his code-breaking work a secret in order to safeguard his native England, but failed to hide his sexual preferences, which led to his tragic death at the hands of the same country he worked so hard to protect. Turing was an eccentric, persecuted genius and a groundbreaking theoretician whose seminal work still plays a role in the science and telecommunication systems that fuel our modern world. ORIGINAL GRAPHIC NOVEL

A WAR IS A DIFFICULT THING TO KILL

The second and final volume of Garth Ennis' oversized hardcover original graphic novel series.

Jamie McKenzie's fighter-bomber strike missions against the Germans get even deadlier, but his ongoing feud with his own commanding officer is no picnic either. His loving wife Beth provides a surprise or two of her own—but Jamie soon finds that there are those who've paid a steeper price than himself in the battle with Hitler's Reich. The stage is set for a showdown high above the frozen fjords of Norway, as a horde of Nazi fighters lie in wait for the RAF Mosquito squadrons.

Writer Garth Ennis (*Preacher*, *The Boys*) and artist Keith Burns (*War Stories*) reunite after the success of their series *Johnny Red*, presenting another tale of World War Two aerial combat—featuring skies black with flak and enemy fighters, nail-biting low-level action, and the dark humor of men whose lives can be snatched away at any second... TRADE PAPERBACK

"HARD ROAD HOME"

STEVE ORLANDO / MATTHEW DOW SMITH

Thrice-Nine took Sasha's brother, and it took Maria's heart.

Plagued by the ramifications of a techno-magic world now thirty years gone, Thrice-Nine limps along, degenerating into paranoia and poison. Sasha Vasnetsov thought he'd escaped all that, but when news comes that his younger brother has been kid-napped by the secret police, he drags himself back into the madness with a simple goal – to find his brother.

But Sasha is going to need help to do this, and he enlists Maria Kamenaya, a former warrior with hundreds of enemy kills to her name, who was betrayed by the very coun-try she served. This quest is how they get both of those things back, in the lawless land of decapitated states...the land of DEAD KINGS.

Written by Steve Orlando (*Batman/Shadow, Crude, Midnighter,* VIRGIL) and drawn by Matthew Dow Smith (*October Girl, Suicide Squad, X-Files*) DEAD KINGS is an in-depth exploration of retribution, in all its dark, complex forms.

The world below is no longer a secret and everything has led to this...

Aspen and Kiani on the same side proves to be an unimaginable force of nature, as they attempt to stop Killian and Anika at all costs. However, they learn a brutal lesson that THE PEOPLE can be more effective than even their Elite Powers. Yet, their greatest surprise lies in the newly transformed Anika—as the world's most dangerous threat somehow manages to gain even more powers—from an unlikely—and deadly—source!

Aspen's Vince Hernandez (Michael Turner's Fathom: Kiani, Charismagic) marks his debut on Fathom's principal series alongside artist Mauricio Campetella (Jirni) and colorists Peter Steigerwald (Fathom, Superman/Batman) in a storyline that will define the Fathom universe for years to come!

FATHOM vol 8 #3 is in stores July 17th, 2019!

SIMON HANSELMANN

BAD GATEWAY

By Simon Hanselmann

$29.99 / HC / 168 pgs / FC / 8.5" ×11.625"

Simon Hanselmann's previous best-selling books, *Megahex*, *Megg & Mogg in Amsterdam*, and *One More Year* have all cemented Hanselmann as one of the most exciting graphic novelists of his generation and *Bad Gateway* is the magnum opus that those books have been building towards. Megg & Mogg's fraught relationship careens into psychological depths that Hanselmann has previously only hinted at as his eternally-stoned, slacker characters begin to reflect the psychological toll that their years of insouciance and self-medication has inflicted.

Her half-sister Vivian gets involved with a small-town gangster while Tonta befriends a young woman who keeps tabs on the neighborhood from the surrounding woods. Meanwhile, back at school, Tonta discovers that Coach Angel harbors a secret while local punk band Ooot provides the soundtrack.

THE ADVENTURE ZONE VOLUME 2: MURDER ON THE ROCKPORT LIMITED!

(W) Clint McElroy & Various
(A/CA) Carey Pietsch
Hot on the heels of *The Adventure Zone: Here There Be Gerblins*, the smash hit graphic novel that launched the series, *Murder on the Rockport Limited* picks up the saga where volume 1 left off. Both books are based on *The Adventure Zone*, a tabletop RPG comedy podcast with downloads numbering in the tens of millions and an army of passionately devoted fans. We rejoin hero-adjacent sort-of-comrades-in-arms Taako, Magnus, and Merle on a wild careen through a D&D railroad murder mystery. This installment has a little of everything: a genius child detective, an axe-wielding professional wrestler, a surly wizard, cursed magical artifacts, and a pair of meat monsters. You know, the usual things you find on a train. Available in softcover and hardcover editions. (STL122113) (C: 1-1-0)

Once upon a time (a couple of years ago) there were these brothers who had a bunch of really successful podcasts, and they decided to do a new podcast with their dad, where they all played *D&D* together as a family, and lo, this new podcast was called *The Adventure Zone*, and verily did it get downloaded over 10 million times, and wow did it totally eat the brains of all who listened, because: It was just. That. Rad. And then did these guys team up with artist Carey Pietsch, and make a graphic novel where the weirdly sweet and brilliant but also super vulgar and honestly kind of bizarre story of The Adventure Zone got adapted into a goofy, innovative, and compelling graphic novel! HAWKING HC GN

(W) Jim Ottaviani (A/CA) Leland Myrick
From his early days at Oxford, Stephen Hawking's brilliance and good humor were obvious to everyone he met. At twenty-one he was diagnosed with ALS, a disease that limited his ability to move and speak, though it did nothing to limit his mind. He went on to do groundbreaking work in cosmology and theoretical physics for decades after being told he had only a few years to live. Through his 1988 bestseller, *A Brief History of Time*, and his appearances on shows like *Star Trek* and *The Big Bang Theory*, Hawking became a household name and a pop-culture icon. In *Hawking*, Jim Ottaviani and Leland Myrick have crafted an intricate portrait of the great thinker, the public figure, and the man behind both identities. (STL122131) (C: 0-1-0)

Cover Price: 20¢

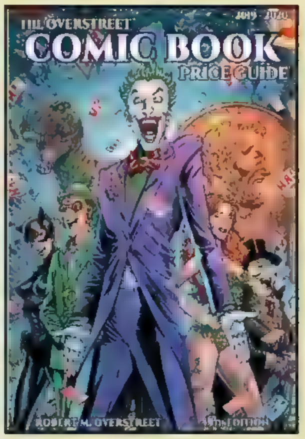
1974 Overstreet Price: 25¢

2018 Overstreet Price: $1,500

Known for: The first appearance of the Mad Titan, Thanos - as well as of future Guardian of the Galaxy, Drax the Destroyer! Drax appeared in a telepathic vision to Iron Man to warn him about the dangers of the Blood Brothers, while Thanos appeared to Drax to inform him that he had been being tracked.

Did You Know?: When initially printed, this issue showed all Titanians as having purple skin, just like Thanos. However, as it was later decided that Thanos would be the only member of his people to have purple skin, subsequent reissues recolored everyone else accordingly.

Overstreet #49 Now Available to Order



The Overstreet Comic Book Price Guide #49 will be landing in stores this summer, on July 17, 2019 – and is currently available to order through PREVIEWS.

There are four fabulous covers to choose from: a stunning piece featuring the Joker and other members of Batman's rogues gallery by Tony Daniel, a striking illustration from Diego Galindo focused on the stars of *Firefly*, a celebration of 100 years of Zorro by Michael Wm. Kaluta, and a nod to the 25th anniversary of *Shi: Way of the Warrior* by her creator, Billy Tucci.

The Shi piece covers the *Big, Big* edition of the *Guide*, which features oversized pricing and none of the editorial content. The three other covers are available in both hardcover and softcover format.

This year's edition of the Guide features updated comic pricing, as well as features on the anniversaries of characters such as Hal Jordan, Blue Beetle, Zorro, and many more. There's also new valuable industry insights from our wealth of Overstreet Advisors in their market reports, plus new inductions into the Overstreet Hall of Fame.

All four covers can be ordered right now through PREVIEWS, and will hit shelves on July 17, 2019.

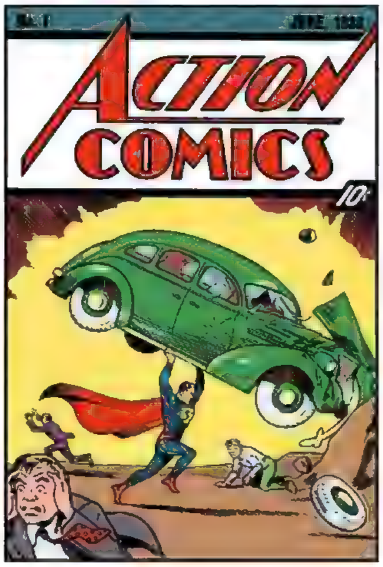
A Decade's Worth of Change in the Industry



As we've been neck-deep in pricing data as we prepare The *Overstreet Comic Book Price Guide* #49, I came upon an interview I did before CBPG #40 was released. Even though we're talking just nine years ago, it seems like it could have been forever when you consider the seismic changes the market has gone through.

"*Action Comics* #1 remains the hottest – even more popular than it's ever been. Thanks to the certification system, there's an inventory of the title and we're getting an actual count of how many copies exists," I said 10 years ago, when *CBPG* #39 was current. "So many people want that title, even in unrestored condition. A Fine (6.0) copy just sold for $317,000, which is double the *Guide* price."

Of course there's been no slowing in demand for *Action Comics* #1. The first appearance of Superman continues to grab attention regardless of the grade in which it's offered. Think about this: the 6.0 price in *CBPG* #40 was $240,000, and last year in *CBPG* #48 the same issue in the same grade was listed at $700,000! Of course, a 9.0 sold for $3.2 million, making it the priciest comic book ever.

And there are lots more success stories in the *Guide*, as well.

When you're reading this, the *Guide* will be at press; as I'm writing these words, though, we're still working on this one. It's a very consuming process, but that doesn't mean I couldn't stop long enough see the record-setting prices Hake's Auctions brought in for *Star Wars* toys in their March 2019 auction. "Impressive" doesn't really cover it. A Luke Skywalker 12-back double telescoping AFA 80 closed at $25,311, the 1980 Empire Strikes Back Bespin Alliance three-pack Series 1 AFA 75 realized $24,402, the Star Wars Android Set three-pack Series 1 AFA 85 ended at $15,705, and the Empire Strikes Back Imperial Set three-pack Series 2 AFA 80 hammered at $10,384. If you haven't already checked out our *Star Wars* price guide, give it some thought!

BECOMING SUPERMAN: MY JOURNEY FROM POVERTY TO HOLLYWOOD

(W) J. Michael Straczynski

For four decades, J. Michael Straczynski has been one of the most successful writers in Hollywood, one of the few to forge multiple careers in movies, television, and comics. Yet there's one story he's never told before: his own. Joe grew up in abject poverty, living in slums and projects when not on the road, crisscrossing the country in his father's desperate attempts to escape the consequences of his past. Joe found refuge in his beloved comics and his dreams, and his ability to tell stories and make everything come out the way he wanted it. But even as he found success, he could not escape a dark and shocking secret that hung over his family's past. *Becoming Superman* lays bare the facts of his life: a story of creation and darkness, hope and success, a larger-than-life villain and a little boy who became the hero of his own life. Mort Walker, the Dean of American Cartooning, left behind a legacy that extended far beyond his *Beetle Bailey* and *Hi and Lois* fame. For the first time ever, Hermes Press and Bill Janocha (Walker's assistant) present a rare selection of gags and art from Walker's early years, before Beetle-mania took over the world. This historical book contains examples of the work he did prior to *Beetle Bailey*, and explores the evolution of his style and showcases his many gags, from his early comics in *Showme* magazine to the work he did for the *Saturday Evening Post*. DITKO SHRUGGED: THE UNCOMPROMISING LIFE OF THE ARTIST BEHIND SPIDER-MAN HC

(W) David Currie

Steve Ditko was the last of a generation of American comic book artists who created powerful modern-day mythology and became among the most influential and original creators of the 20th-century. He co-created Spider-Man along with Stan Lee, but walked away from the character in the 1960s just as it was gaining popularity, never to return, never to give interviews, never to attend conventions or court fame and attention. He died alone at 90, known to the comic book industry as a "cranky recluse." Through his history, the stories of other artists from the same period are examined, from Jack Kirby to Wallace Wood, and how they all fell afoul of a system stacked against them. A young Jewish filmmaker escapes the Nazi threat in Shanghai, where he is forced to adapt to a new land and cope with loss through the magic of filmmaking.
Berlin. 1938. Bernhard, an aspiring filmmaker, dreams of one day directing the screenplay he and his wife are writing. But as a Jew in Hitler's Germany, he faces increasing danger and discrimination, and is soon forced to accept deportation to Japan as his only hope. Separated from his wife, he is rerouted to China. There, he struggles through grief and loss and vows to bring their screenplay to life as a tribute to his wife's legacy. A distinctive and humanistic take on World War II from the largely undocumented Chinese perspective.

CREATION. DESTRUCTION. SURVIVAL.

SEVEN QUESTIONS ABOUT CATALYST PRIME: SEVEN DAYS

Two years ago, "Catalyst Prime: The Event" smashed Free Comic Book Day, and emerged as one of the most talked about titles of that first Saturday in May. This was the introduction of the Catalyst Prime Universe, a new seven-title superhero universe, hinging on a cosmic event distributing powers to characters from all walks of life.

Now, legendary comic book scribe and CPU architect Gail Simone unleashes ***Catalyst Prime: Seven Days***; a seven issued series that unites our heroes counting down the days of what might be the final week of humanity's reign on Earth.

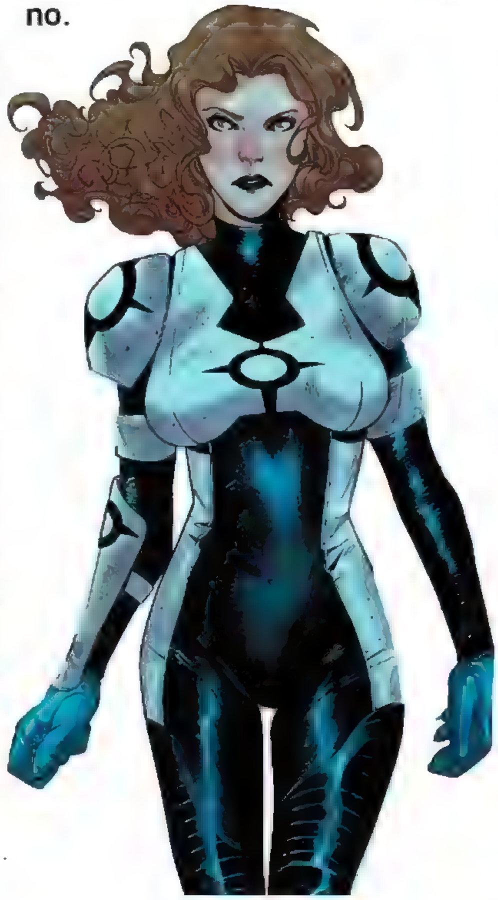
The **PreviewsWorld** team caught up with Gail to coincide with the introduction of this exciting new series tying together comics' most inclusive and diverse superhero universe.

PREVIEWS: *With Lion Forge arriving on the scene a few years back under a banner of "Comics For Everyone," and a superhero universe built around representation, you were a natural fit to work with them. How did this upstart lure you over to take on such a significant role for them?*

GAIL SIMONE: It's BECAUSE they're new that I was so excited to take this role. The Lion Forge folks are from the Midwest, they have that wonderful welcoming hospitality that feels different from the rest. And they're whip-smart; they are looking at new ways of telling these stories.

But above all, once I started delving into the books, I just became enraptured with the characters. Noble, Summit, Cosmosis, they all felt incredibly fresh and vibrant. I could see the possibilities immediately, and I simply got hooked. Now I'm writing them, and I love them even more.

SEVEN DAYS is essentially this premise: WAR OF THE WORLDS, but instead of Earth being completely helpless, we actually have humans with superpowers. That kind of story idea is the stuff that makes this job a joy. The humans fight BACK this time. So of course, I couldn't say no.



P: *When you were first becoming acquainted with these characters and this universe, was there one that immediately stood out for you?*

GS: Absolutely! The first to really hit me hard was Summit. I just can't think of another superhero quite like her.

The backstory of the Catalyst Prime Universe is this: a meteor wave threatens Earth, and five brave astronauts are sent into space to avoid an extinction-level event. But the mission goes wrong. Valentina Resnick-Baker survives that, she's literally the woman who fell to Earth.

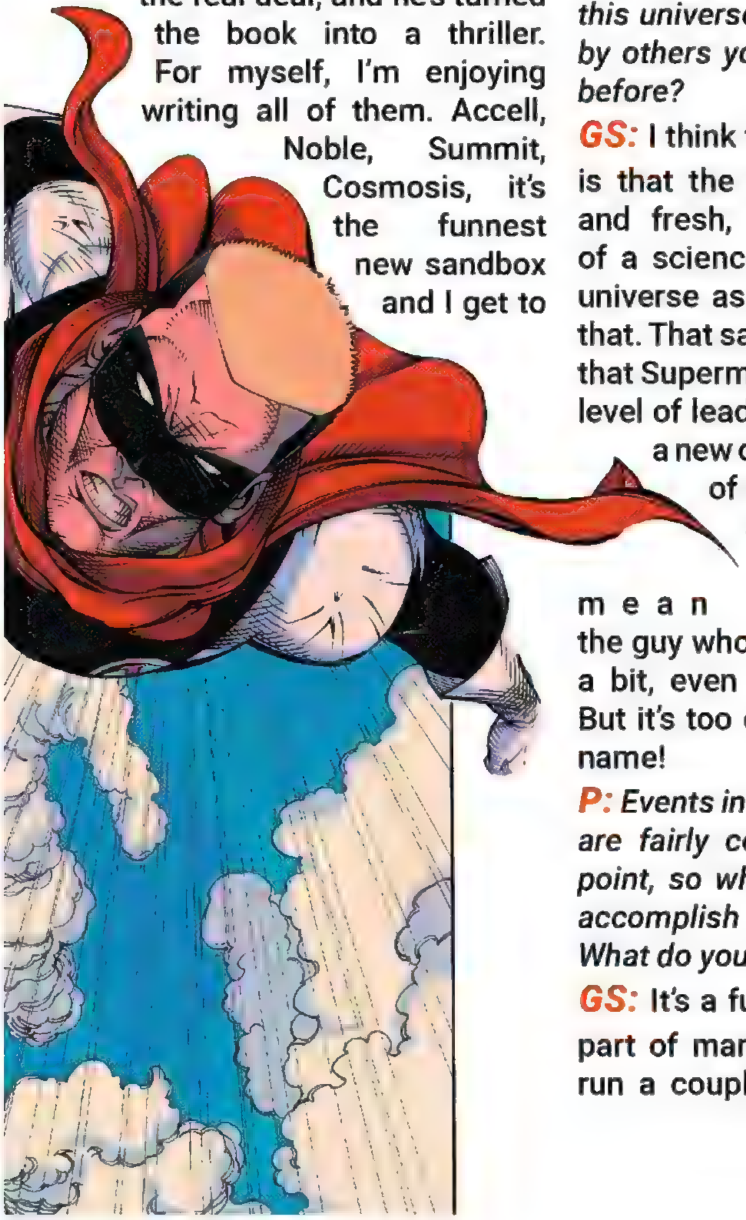
So, she's a brilliant, Jewish, queer female astronaut, and she's given these powers and a second chance. I feel that's a movie waiting to happen.

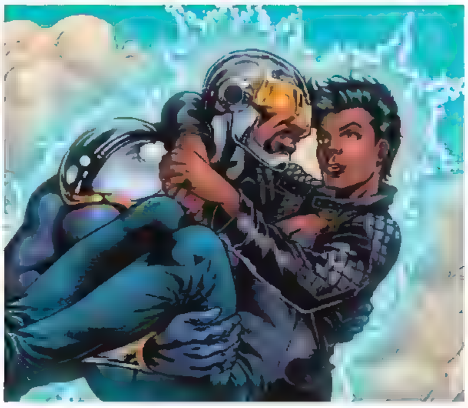
But there are so many others I have come to love as well, especially Noble, Cosmosis, and our newest hero, Quincredible. I love them like I love the characters I first read as a kid. I

have that kind of excitement for them.

P: *Conversely, is there a character you felt was underutilized, that you saw an opportunity to "own" and position for a larger role? Were those two characters different?*

GS: When I came aboard, I felt the character of Alistair Meath, the British astronaut who came back as the power-enhanced hero KINO, was a bit of a mystery. But we got Alex Paknadel to write that book now, and he's KILLING on it. It's not hype, I feel that Alex is one of those writers we will be speaking of as we speak of people like, say, Ed Brubaker or Donny Cates. He's the real deal, and he's turned the book into a thriller. For myself, I'm enjoying writing all of them. Accell, Noble, Summit, Cosmosis, it's the funnest new sandbox and I get to show them under the worst stress of their lives—an actual alien takeover of the entire planet.





P: *Obviously, with the vast array of characters you have written, there must have been some influences coming into play for you. Are there any characters in this universe who are influenced by others you have worked with before?*

GS: I think the value of the CPU is that the characters are new and fresh, there's a bit more of a science fiction feel to the universe as a whole, and I love that. That said, Noble has a bit of that Superman/Captain America level of leadership, and we have a new character coming out of SEVEN DAYS that is a bit like our Spider-man. By that, I mean classic Spider-man, the guy who creeped people out a bit, even while saving them. But it's too early to mention her name!

P: *Events in superhero universes are fairly commonplace at this point, so what is it you hope to accomplish with "Seven Days?" What do you feel will set it apart?*

GS: It's a funny thing, I've been part of many event books, and run a couple myself, and a lot of them feel like they are written by a committee, according to a formula. You know, this guy dies, this guy loses an arm, and a year later no one even mentions it. Lion Forge didn't want that, they wanted something that matters. So, I went back to my all-time favorite event book, the Crisis On Infinite Earths...where you saw how the event affected EVERYONE from the big guns to the civilians, and how you hung on every issue because anything seemed possible.

In SEVEN DAYS, we present a world where people think the world is ending, and they live their lives like it's the last hours they will ever see. So, we see a world where people stop going to work, where everyone goes AWOL. It's just fascinating stuff to me. It's a superhero adventure, but it reads like an apocalyptic science fantasy, and I love those.

P: *Will we see any new characters in this series, and conversely, will this be the last we will see of others?*

GS: A few characters definitely get their bell rung hard in SEVEN DAYS. This is a catastrophic story, it's like the classic disaster movies. Some people are going to come out of this battered, if

they're still standing at all.

Then we have the character we mentioned before. There are a couple of new titles, the kinds of books I have wanted to see in the marketplace for a long time. I will be writing one of these and overseeing the others with top talent, it's ridiculously exciting. They're all characters I created, designed by my favorite artists. I can't wait for you all to see them!

P: *Any closing thoughts or things to expect from your new series?*

GS: Just that it's a ripping yarn. I think even people who maybe haven't followed my work that closely know that comics are my entire passion in life. I love these stories of people trying to do right, I love a huge, grand adventure. It's what I never get tired of.

SEVEN DAYS doesn't require seventy years of comics history. You can jump right in and you won't feel lost. If you're new to the CPU, it's just a thrilling disaster story...only THIS time, the characters have superpowers. And they fight BACK.

It's one of the funnest, most thrilling things I've been part of in comics. Every issue raises the stakes. And the art, by Jose Luis, is astounding...we chose him because he draws spectacle like no one else, it's like the biggest budget film in history.

Come see our universe. You're very welcome.

But be prepared for explosions.

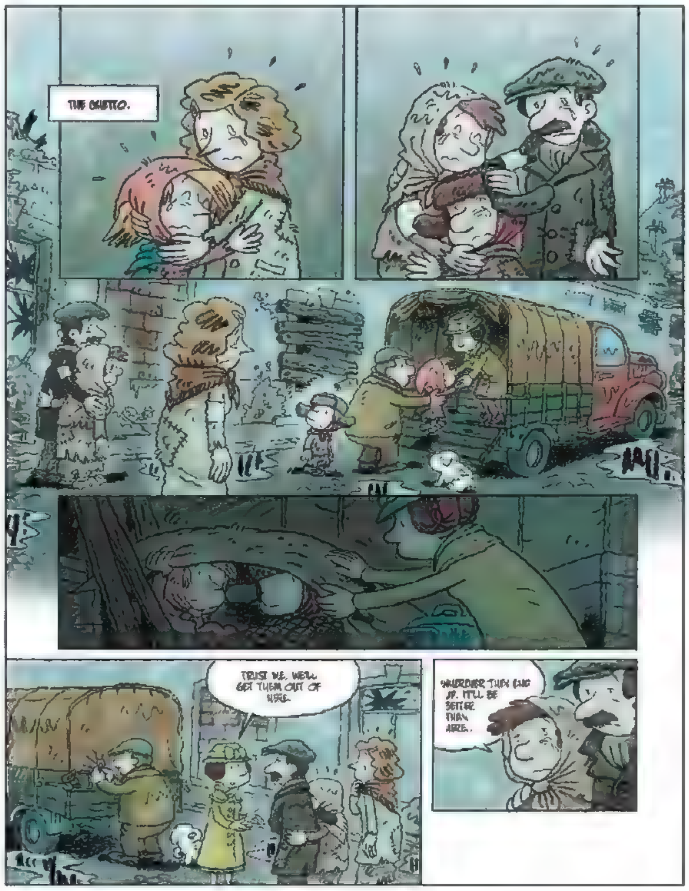
Irena Book One: Wartime Ghetto is a 136-page full color biography that chronicles the life of Irena Sendlerowa. Carefully researched by the creators, this book is truly a work of love. Irena was a member of the Citizen Center for Social Aid during World War II, joined the resistance, and saved over 2500 children from the hell of Nazi-Occupied Warsaw Ghetto. The artwork by David Evrard invokes an innocence and charm that serves as a stark juxtaposition to the tense and perilous moments the story provides. This book is a must have for admirers of Irena Sendlerowa's extraordinary life and those looking to learn more about the Jewish experience during World War II.



THE GHETTO.
TRUST ME, WE'LL GET THEM OUT OF HERE.
WHEREVER THEY END UP, IT'LL BE BETTER THAN HERE.

ABOUT IRENA SENDLEROWA

Irena Sendlerowa was born in 1910 in Otwock, a small town in central Poland.

Irena was 29 years old when the Germans invaded Poland. The Germans soon gathered all the Jews in Warsaw into a small portion of the city that became known as the Warsaw Ghetto. The ghetto's prison-like conditions led to thousands of deaths every month from starvation and disease. As a non-Jewish social worker, Irena was one of few outsiders allowed to enter thanks to a permit authorizing her to check the grounds for typhus and to help contain the disease from spreading outside the ghetto.

Slowly and carefully, she and a group of friends began sneaking children out of the ghetto, giving them new identities and temporary families. She wrote down each child's original name, new name, and new address on a small slip of paper and buried the papers in glass jars in hopes of reuniting the children with their parents once the German occupation had ended.

Her story was embraced worldwide in 1999 with a celebrated play and television movie bringing global awareness to her bravery. She was nominated for the Nobel Peace Prize in both 2007 and 2008, and has earned countless other commendations and praise.

She passed away on May 12th, 2008 at the age of 98.

ZOMBILLENIUM VOLUME 4: AIR GIRL HC

Zombillenium Park has never been better: its popularity has peaked following demonic reforms by Behemoth, who then decides to play his property in a very special competition: a witches' Sabbath! Gretchen, Aurelian and Von Bloodt, meanwhile, have set up an underground escape network in order to offer the damned the chance for reconversion, far from the nine circles of Hell, a dangerous secret opera-tion not appreciated by the park's board of directors. Determined to clean this out, they hire the services of a formidable enchantress who will turn into an arch-rival of Gretchen. Underground as in the air, the fight promises to be epic! (STL121993)

ZOMBILLENIUM DOUBLE VOLUMES 1 & 2: GRETCHEN/HUMAN RESOURCES HC

(W/A/CA) Arthur de Pins

Francis von Bloodt, vampire, a good family man, manages the theme park Zombillenium. They don't just hire anyone, at Zombillenium: mere mortals need not apply, the park works only with genuine werewolves, vampires, and zombies. In the second chapter, tempers are flaring around Zombillenium, the monster amusement park run by monsters. When one hires only the dead (or witches!) in a region where unemployment is in the double digits, one must expect some friction. But things get particularly ugly when the park's security is breached from two sides: activists and a very strange visitor, mom to two peculiar sons the head of the park seems to remember from somewhere! There's excitement in the Zombillenium horror themed park run by actual monsters. Brought in by Behemoth himself, the vampire Beauford Jaggar Carniegie III is officially supposed to help CEO Francis in managing the park. If one looks more closely, the reasons for his coming may seem less anodyne than announced. Of course, his mission is to increase return on investment for the shareholders, but for Behemoth that return has to be in souls. Francis is appalled but obligated to kowtow to the almighty consultant, determined to take power and pervert the rules of Zombillenium. (STK676178)

BOYS vs. GIRLS

WHEN IT COMES TO SEX AND SEXUALITY, A LOT OF PEOPLE THINK THAT CERTAIN GROUPS OF PEOPLE ARE SO DIFFERENT, THEY MAY AS WELL BE TOTALLY DIFFERENT SPECIES.

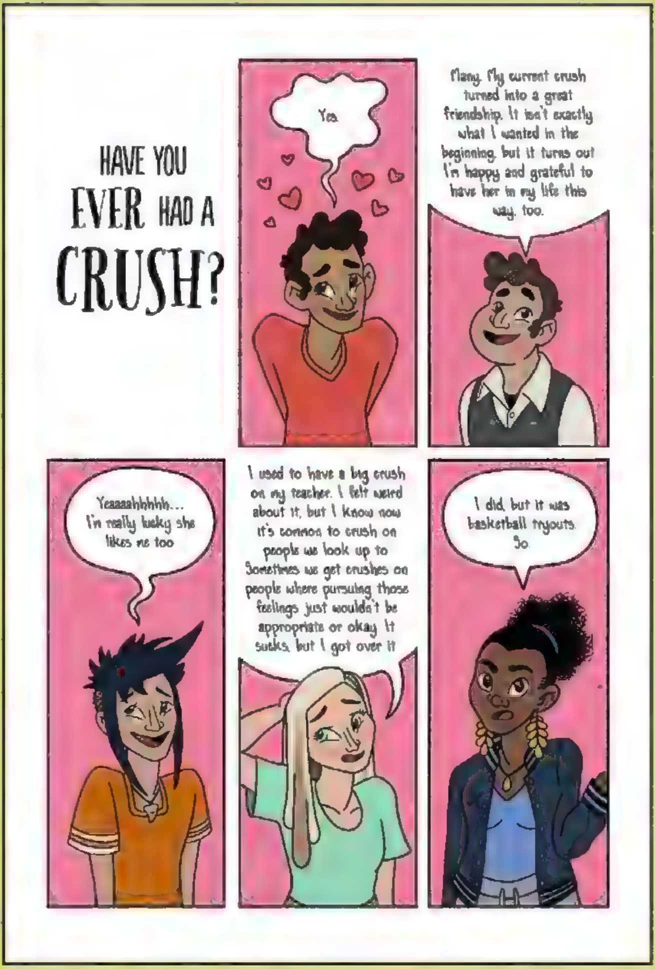
We know from many years of studying human sexuality that people are more the same sexually than different. That's true whether we're talking guys and girls, people with penises and people with vaginas, young people or old people, or people who like the music their parents listen to and people who DO NOT UNDERSTAND WHAT THEY DID TO DESERVE SUCH HIDEOUS TORTURE!

PINK is just a color.

ACTION FIGURES and *dolls* are the same thing.

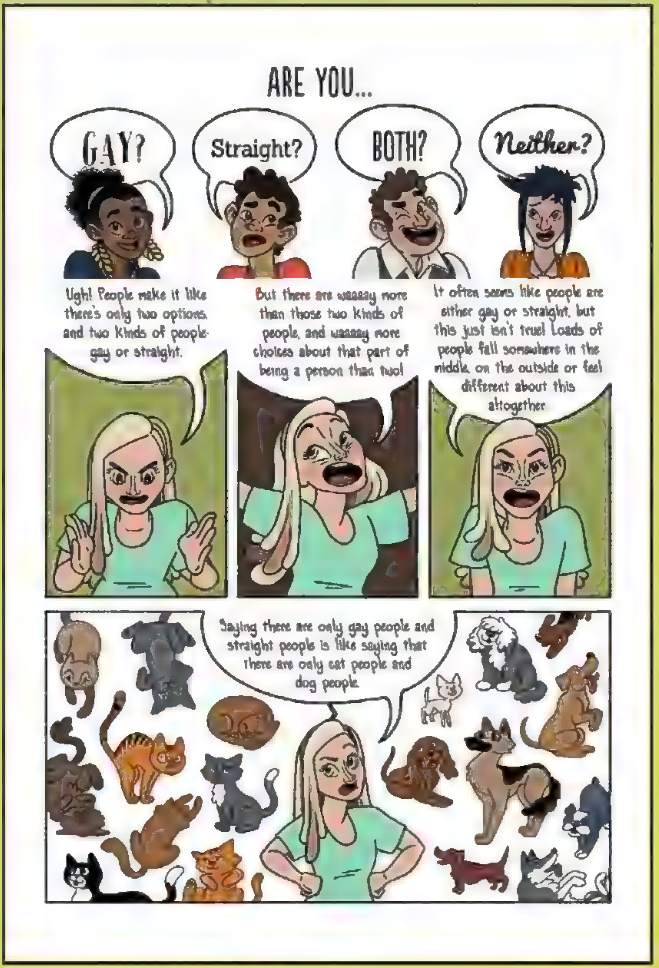
and SPORTS are for everyone.

The ways people think about what boys are supposed to do or be and what girls are supposed to do or be are usually about a whole lot of stuff that has nothing to do with who you actually are Whether you're a boy, a girl or someone else entirely, *your ideas about what you want to do and who you are are the ideas that matter most.*



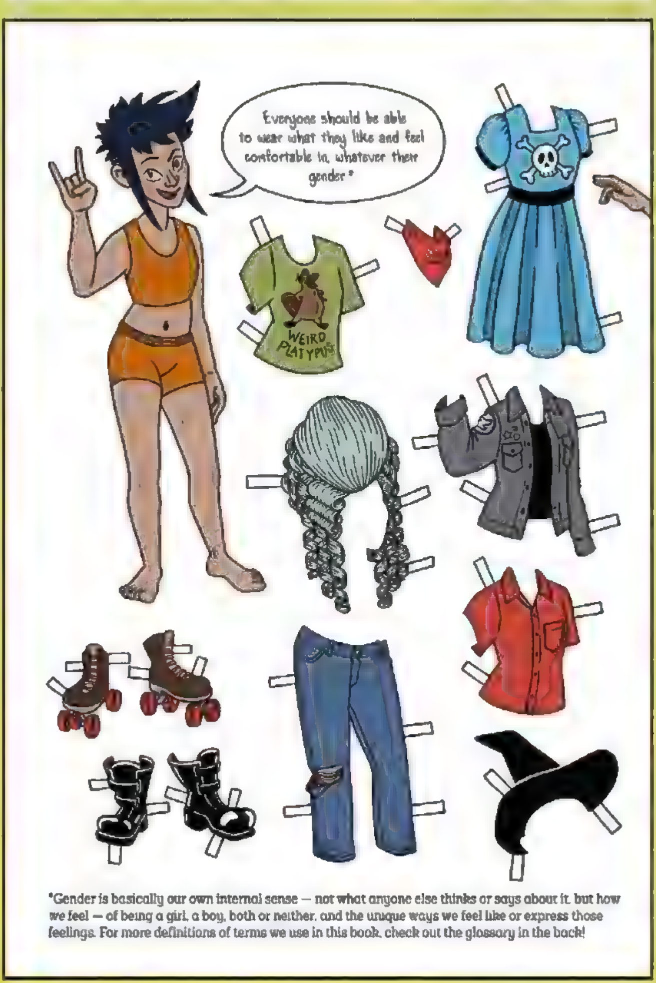
HAVE YOU EVER HAD A CRUSH?

Yes
Many. My current crush turned into a great friendship. It isn't exactly what I wanted in the beginning, but it turns out I'm happy and grateful to have her in my life this way, too.
Yeaaaahhhhh... I'm really lucky she likes me too
I used to have a big crush on my teacher. I felt weird about it, but I know now it's common to crush on people we look up to Sometimes we get crushes on people where pursuing those feelings just wouldn't be appropriate or okay It sucks, but I got over it
I did, but it was basketball tryouts. So



ARE YOU...

GAY?
Straight?
BOTH?
Neither?
Ugh! People make it like there's only two options and two Kinds of people- gay or straight.
But there are waaaay more than those two Kinds of people, and waaaay more choices about that part of being a person than two!
It often seems like people are either gay or straight, but this just isn't true! Loads of people fall somewhere in the middle, on the outside or feel different about this altogether
Saying there are only gay people and straight people is like saying that there are only cat people and dog people.



Everyone should be able to wear what they like and feel comfortable in, whatever their gender*
WEIRD PLATYPUS

*Gender is basically our own internal sense — not what anyone else thinks or says about it, but how we feel — of being a girl, a boy, both or neither, and the unique ways we feel like or express those feelings. For more definitions of terms we use in this book, check out the glossary in the back!

But Kriss is haunted by dim memories of his true father, Erikk Iron Tooth, the king of Darkovia.

When Anja's mother is killed by a wild sabercat from the far north, the young girl's world is shattered, and Kriss determines to avenge her. Armed with only a pitchfork, the skinny teen sets out to kill the beast, only to learn that it's actually a dark spirit from Darkovia, come to bring him his destiny. The spirit grants Kriss the power to vanquish the mightiest foes, and commands him to reclaim his father's kingdom. But his gift of power comes with a price – uncontrollable rage. And leaving the village would mean leaving Anja, the only person who's always been there for him. Kriss must choose between his destiny and Anja, who needs his friendship more than ever. But his growing power, and the fiery anger that comes with it, threatens to make the choice for him, and burn everything he holds dear.

LOST IN JURASSIC
PAPERCUTZ

(W) Redcode (A) Albie & Air Team

STEM-inspired comics adventures drawn in a full-color manga-style reminiscent of *Dragonball Z*, with special illustrated pages devoted to science facts. The Dinosaur Explorers - Rain, Emily, Sean, and Stone, along with Dr. Da Vinci, his assistant, Diana, and their robot helper, Starz - were all flung back in time by Dr. Da Vinci's particle transmitter, and the solar-power device can only bring them back to the present a few centuries at a time, giving them all a perfect opportunity to explore the past-provided they can actually survive it. They now find themselves back in the Jurassic, and they quickly find it's no walk in the park (Get it?) (Sorry.). This is the grand age of dinosaurs, but also the time when the first non-dinosaur animals begin to stretch their wings! Available in softcover and hardcover editions. (STL107410)

From the creator of *Riverdale*, this prequel YA novel tells an all-new, original story based on *The Chilling Adventures of Sabrina*, the hit Netflix series based on the recent Archie Comics horror title! It's the summer before her sixteenth birthday, and Sabrina Spellman knows her world is about to change. She's always studied magic and spells with her aunts, Hilda and Zelda. But she's also lived a normal mortal life — attending Baxter High, hanging out with her friends Susie and Roz, and going to the movies with her boyfriend, Harvey Kinkle. Now time is running out on her everyday, normal world, and leaving behind Roz and Susie and Harvey is a lot harder than she thought it would be. Especially because Sabrina isn't sure how Harvey feels about her. Her cousin Ambrose suggests performing a spell to discover Harvey's true feelings. But when a mysterious wood spirit interferes, the spell backfires... in a big way. Sabrina has always been attracted to the power of being a witch. UPTON SINCLAIR'S THE JUNGLE GN

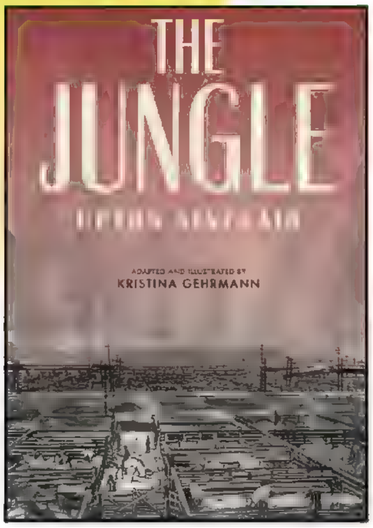
(W) Upton Sinclair, Kristina Gehrmann (A) Kristina Gehrmann



A compelling graphic novel adaptation of Upton Sinclair's seminal protest novel that brings to life the harsh conditions and exploited existences of immigrants in Chicago's meatpacking industry in the early twentieth century. Long acclaimed around the world, Upton Sinclair's 1906 muckraking novel *The Jungle* remains a powerful book even today. Not many works of literature can boast that their publication brought about actual social and labor change, but that's just what The Jungle did, as it led to the passage of the Pure Food and Drug Act of 1906. In today's society, where labor and safety of the food we eat remain key concerns for all, Sinclair's shocking story still resonates. Bringing new life and energy to this classic work, adapter and illustrator Kristina Gehrmann takes Sinclair's prose and transforms it through pen and ink, allowing you to discover (or rediscover) this book and see it from a whole new perspective. The complex history of the Marvel Universe, in its creators' own words

KIRBY & LEE: STUF' SAID! SC (NEW PRINTING)

New updated edition! For its 75th issue, *The Jack Kirby Collector* magazine presents this first-of-its-kind examination of the creators of the Marvel Universe, in an oversized book! Completed just days before Stan Lee's recent passing, *Kirby & Lee: Stuf' Said!* looks back at the duo's own words - in chronological order, from fanzine, magazine, radio, and television interviews - to paint the most comprehensive and enlightening picture of their relationship ever done... why it succeeded, where it deteriorated, and when it eventually failed. Also, here are recollections from Steve Ditko, Wallace Wood, John Romita, Sr., and more Marvel Bullpen stalwarts who worked with both Kirby and Lee. Rounding out this book is a study of the duo's careers after they parted ways as collaborators, including Kirby's difficulties at Marvel Comics in the 1970s, his last hurrah with Lee on the *Silver Surfer* Graphic Novel, and his exhausting battle to get back his original art - and creator credit - from Marvel. *Stuf"Said!* gives both men their say, compares their recollections, and tackles the question, *"Who really created the Marvel Comics Universe?"* Compiled, researched, and edited by publisher John Morrow. IT'S POPPY'S WORLD... WE JUST LIVE IN IT.

Z2 Comics presents the first Poppy Graphic Novel!

Poppy is a mysterious and enigmatic internet sensation… starring in YouTube videos and music videos that spawn intense fan interaction, analysis, and commentary. Is she a girl? Is she a machine? Is she humanity's redemption, or its damnation? Those questions are not easy to answer, and they won't be found here.

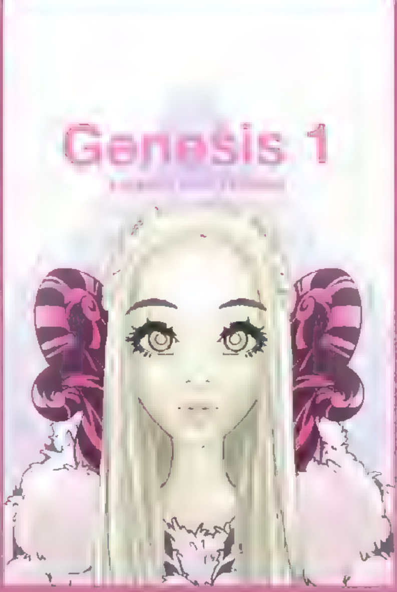
What you will find here are answers to questions that are more accessible… as Poppy enthusiastically enters the comics field with her new Graphic Novel, ***GENESIS ONE*** from Z2 Comics!

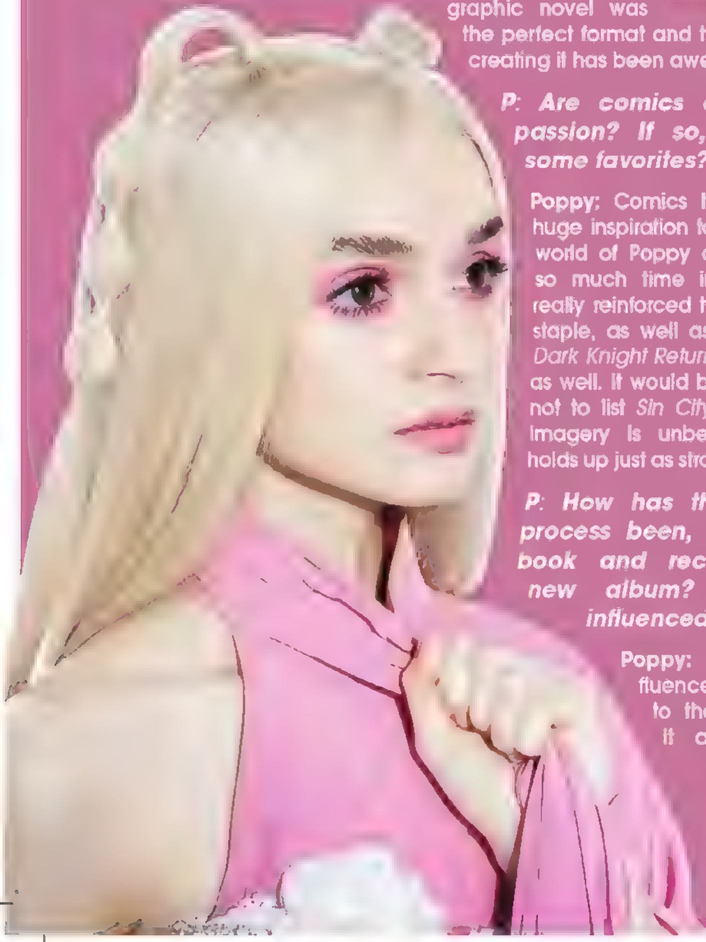
PREVIEWS: What drew you to comics? Is writing a graphic novel something that's been on your to-do list?

Poppy: From the beginning, we knew comics would be a great medium for storytelling in Poppy's universe. The initial draw came from imagining what the imagery and design could look like, but as we got into the story itself we found a certain freedom that wasn't restricted by production hurdles of a movie or music video. This opened up a whole new creative world because this allowed us to tell the origin story of Poppy without limitations.

P: What has been your favorite part of the process of creating a brand-new story?

Poppy: The best part about this process is collaborating with artists we respect so much and having a shared vision come to life before our eyes. Every creative idea tends to have a particular method of delivery that makes the most sense — sometimes a song is the right way to go forward, sometimes it's a short film — but in this case a graphic novel was the perfect format and the process of creating it has been awesome.





P: Are comics a longtime passion? If so, what are some favorites?

Poppy: Comics have been a huge inspiration to the creative world of Poppy and spending so much time in Japan has really reinforced that. *Akira* is a staple, as well as *Hellboy. The Dark Knight Returns* was pivotal as well. It would be an injustice not to list *Sin City* as well; the imagery is unbelievable and holds up just as strong today!

P: How has the creative process been, writing this book and recording the new album? Has one influenced the other?

Poppy: They all influence each other to the extent that it all feels like one cohesive body of work. When we set out to make something new, there is no distinction between which medium will be the focus. Just like an architect uses dozens of tools to construct a building, our tools just happen to be software-based and range across all creative mediums. Sometimes a series of chords on a piano will influence a scene change in the story and often seeing a panel will inspire a tone on a synthesizer. It's a very balanced process.

P: Should we expect some of your new songs to tie into Genesis One?

Poppy: Yes! From the beginning, Poppy has been planting the seeds of the *Genesis One* plot and fans can expect to find some really fun Easter Eggs that will lead them even further down the rabbit hole!

P: Did you have a favorite comic book growing up?

Poppy: It's impossible to single just one out — that's like trying to pick a favorite album. It's probably safe to say *Spawn* and *Teenage Mutant Ninja Turtles* were up there along with the others mentioned previously. *Sin City* is just so cool as well!

P: Have there been challenges in translating the feel of your music and your videos to sequential art?

Poppy: Not at all. We kind of reverse-engineered the process so when it came time to tell this story, the foundation and themes were already so reinforced that it has made the process very fluid and natural. It was a huge help going into this process with over 500 videos that served as a great blueprint.

P: Is there anything in Genesis One that you would like to recreate in one of your videos?

Poppy: We've already incorporated some of the scenes, but fans can absolutely expect to see the story to jump off the page and into videos in the future. This is one of the things we are most excited about!

P: If you could pick one superhero to feature in one of your videos, which one would it be?

Poppy: Without a doubt Michelangelo from *Teenage Mutant Ninja Turtles*.

P: Is writing graphic novels something you would like to do more of in the future?

Poppy: This has been an absolute dream come true and we hope to continue this as a series!

Pokémon Adventures writer Hidenori Kusaka has a unique take on the *Pokémon* universe and has taken many liberties on interpreting which trainers and gym leaders are good and bad, injecting character into the silent *Pokémon* video game protagonists and also creating original romantic storylines between those characters. If there is one manga series for a diehard *Pokémon* fan to enjoy, it would be the long-running, and now legendary, *Pokémon Adventures* series.

TOY TALK: EAMON O'DONOGHUE

Toys, Statues and other collectibles don't just magically appear on store shelves. A lot of work goes into the concept, design, sculpting and final production of these items, and many of the people who work behind-the-scenes with companies like Diamond Select, DC Collectibles and Gentle Giant, among others, remain mostly unknown to their appreciative audience: the final consumer.

With *Toy Talk*, we hope to introduce you to the artisans behind some of your favorite collectibles, and to let them enjoy their well-deserved moment in the spotlight!

This month, we welcome *Diamond Select Toys Designer and Illustrator*, EAMON O'DONOGHUE...

PREVIEWS: What's your origin story? How did you get involved in the toy industry?

Eamon O'Donoghue: I grew up in Ireland and you can blame all this on *Masters of the Universe* as when I was a boy that was what I played with religiously. I used to stare at the toy boxes, the art blew my mind and I wanted to do the same. I never really stopped buying figures... even after I discovered girls. In the '80s it was *He-Man*, *Bravestarr* and *The Real Ghostbusters*. In the early '90s it was *WWF* and *Star Trek: The Next Generation* figures. In the late '90s it was of course McFarlane's *Spawn*, and my interest in all things articulated plastic has just kept growing since.

My first job as a freelance artist and designer was for *He-Man*, my second for *Dungeons & Dragons*, then *Transformers*, then *M.A.S.K.*... so I serendipitously found myself doing a lot of (DVD) art for toy and cartoon brands. This then lead to design work for Hasbro on some girl brands like *Jem* and *Blythe*, but my work first action figure was for Mezco. Today action figures take up about 75% of my work schedule. 50% of that is designing figures, and about 25% is painting the packaging artwork (*Marvel Legends*, *DC Superhero Girls*). I can safely say I am in fanboy heaven with this workload and I feel extremely fortunate.

PREVIEWS: How does your experience as an illustrator help you as a toy designer?

EO: My style of art is quite clean, so I think that lends itself well for action figures as it means providing the sculptor with as much as they could need for them to do their magic. For me, presentation is important too as more often than not, the first thing a licensor is going to see the artwork. So, it has to be good art, nicely presented, to help give the line as best a chance as possible at getting the green light. As a freelance artist it is your job to give the clients exactly what they want or expect, so I feel that mentality lends itself well to action figure design.

PREVIEWS: Take us through your process... How does the product go from paper to a finished model?

EO: Well, luckily most of what I am asked to draw I am already a fan of — or at least familiar with — which is of course handy when thinking about what is expected for a new figure. But the very first thing I do is to gather reference, and I will spend a good day doing that before I start any drawing, especially if it's a whole wave of figures for a new license. I know what I want to see in an action figure myself, so getting details as accurate as possible is vital. Gathering reference for movie or TV licenses involves watching and scanning a lot of movies and YouTube videos with lots and lots of freeze framing. For figures like Diamond Select's *Avengers* movie figures (which are made in advance of the movie's release) it's just a case of studying the supplied reference and reading the details as accurately as possible. Sometimes you even have to just figure out what that blurry detail looks like from any angle. But for other lines I might then use things like Pinterest to gather up materials if the figure requires a brand new or updated look. I will send that Pinterest page to the client who can then choose what ideas they like. I'll draw up a few designs and once the overall look is agreed upon, I will then do the full turns or "control art" for the action figure. That artwork is then passed on to the sculptors who do their amazing work at turning that into 3D and then some.

PREVIEWS: You've recently done products for shows such as WESTWORLD and CASTLEVANIA. How do you design a figure so that it stays true to the mood and tone of the show?

EO: It's all about gathering reference and being familiar with the character you are drawing. I was already watching and a fan of the Netflix's *Castlevania* and HBO's *Westworld*, so having the opportunity to draw these great characters was a treat. *Westworld* is a reality-based show, so I felt it important to try to be as realistic as possible by incorporating the smallest of details on each figure, like the unique texture of the Man In Black's coat or the patterns on Clementine's dress. The accessories really help with the mood of the character — like Sypha's magic hand gestures for *Castlevania*. Facial expressions play a vital part too, of course. You want to choose that one expression that you think fits that character.

PREVIEWS: Speaking of CASTLEVANIA, you were tasked with designing the first action figures based on the animated Netflix show. What was your approach with your design?

EO: *Castlevania* in particular has that stylized, anime look, so it was vital to represent the longer lithe anatomy of these vampires and heroes. Luckily the animation in *Castlevania* is quite consistent, so the details of the characters usually stay the same... but smaller details can vary so you have to choose those more detailed close-up frames as your reference (which are hard to find over 12+ episodes) to get as accurate a read of the details and shapes as possible. The clean shapes of the characters in particular are what I think gives this line of action figures a particular appeal. That then, along with the smooth clean sculpt, helps give the figures a desired animated look.

PREVIEWS: Do you have a favorite product you've worked on?

EO: As I am sure you can tell by now, I am a mad action figure nut, so I do love them all! *Westworld* was a lot of fun, as I got the opportunity to suggest a lot of the accessories and dioramas. But there is something I'm an even bigger fan of that I just finished working on for Diamond Select that I am super proud to be a part of and I think it's one action figure collectors have been clamoring for. But I cannot say what it is right now, as I love my job and wish to design action figures forever!

Chocobo's Perpetual Calendar is here! Due to its petite size, it can be placed in various locations, not limited to a desktop. Even though its size is small, it has superb construction with amazing details like flowers, a stump, and gradient shading on the surface of the ground, resulting in a finish that gives it great presence.
